A Duluth Clothing House Exclusively Owned and Controlled by Duluth Men.  
ESTABLISHED 1881.

Our store is open every Monday and Saturday Evening and closed other evenings at 6:30 p.m.

Open Tomorrow Night Till 10:30.

(We mean our store.) The mouth of the public is always open when there is anything good to eat, and judging from the many pocket books being opened these days in our store, we must have much what the men folks consider good to wear.

What a time we'll have tomorrow, our old and new friends will come in crowds after the good, solid, never disappointed clothing.

The old stores are full to overflowing with handsome Spring Clothing. The greatest care has been exercised in selections of styles and most careful workmanship demanded, so that whoever leaves money with us receives absolute value.

We've made steps down hill in all directions to this store for every Spring Overcoat wearer, and they're coming. 1000 Overcoats and over to see.

\$10 is the price for the best for that money.

\$15 is the least if you want silk lined.

\$25 are these prices who couldn't be pleased?

Selling our goods at lowest prices and at the same time advertising extravagancy, making ourselves known through a useful medium, viz., so every purchaser of a Boy's Suit (regardless of cost) a Handsome Pocket Knife or a Spasmatic Base Ball and Bat. FIVE O'CLOCK EDITION.

THREE CENTS

BOB SMITH NAMED.

St. Paul Democrats Again Place Mayor Smith at the Head of Their Ticket.

Fred P. Wright, a Popular Business Man, Will Lead the Republicans.

The Independents and Prohibitionists Support Wright and a Lively Fight is Expected.

ST. PAUL, April 22.—Both the Democratic and Republican city conventions to nominate candidates for the coming spring election were held yesterday afternoon. The Democrats nominated the following ticket: for mayor, Robert A. Smith; for treasurer, William Banholzer; for comptroller, Swan Pontham; Assemblmen—East of Wahaba, L. E. Reed, J. J. Ryan; west of Wahaba, Mark Costello, L. N. Dion, R. S. McNamee, Ansel F. Wall, Sixth ward, Robert Moore, and aldermen—First ward, W. L. Peet; Second, W. B. Best; Third ward, Pat Conley; Fourth ward, O. O. Cullen; Fifth ward, J. Donnelly; Sixth ward, Frank J. Johnson; Seventh ward, J. C. Wall; Eighth ward, Cary, J. Warren; Ninth ward, J. F. Gehan; Tenth ward, J. J. Dobner; Eleventh ward, William A. Taverner.

The following resolutions were adopted:

Resolved, That the Democracy of the city of St. Paul, in its present condition, is record in extending the pledges contained in its platform of principles adopted two years since, and reaffirms the doctrines and declarations that platform.

Resolved, That we command with most sincere cordiality and heartiest admiration the excellent administration of affairs by the legislative branch of the city under Democratic rule, and we specially commend the just, liberal and enlightened administration of the mayoralty under the Hon. Robert A. Smith.

Resolved, That we do most heartily approve of the action of the city council in establishing the eight hours day, and on our word, and hereby promise to give our unqualified support to all measures in behalf of the laboring men of the city.

The Republican convention was quite lively, were being quite a fight over the mayoralty nomination. What is known as the "kid" element wanted Hon. Wm. L. Anderson made the candidate, but Col. Fred P. Wright was selected, not standing.

Wright, 70; Ames, 43. The rest of the ticket was named as follows:

For comptroller—Second ward, E. O. Johnson; Third ward, Gen. F. J. Greene; Fourth ward, George Schram; Fifth ward, Robert Sing; Sixth ward, Harry Franklin; Seventh ward, F. G. Ingols; Eighth ward, Herman Hardt; Ninth ward, Harry P. Jensen; Tenth ward, John Johnson; Montgomery; Eleventh ward, A. C. Hickman.

Lengthy resolutions denouncing the present administration of the city were adopted. They are, in part, as follows:

We abhor the existing city administration as a dangerous perversion of representative rights and obligations, in that which it maintains a cynical system surcharged with extravagance and corruption, it has, by the influence and example of its foremost members, set at nought every principle of private and public morality, and has violated the law breaker by setting a premium on every form of public vice, and has constituted the social outlaw a priviliege of the law, and a scourge against public order, which civilized government is in large measure designed to punish and prevent, thrice blessed, fostering shadow of official life.

With criminal influence and criminal methods in the scheme it is irreconcileable that the administration of the city and the public burden of its people should have grown until they constitute not only a grievous burden to the taxpayer, but a stinging menace to the city's credit, as well as an obstacle in the path of the city's progress.

On Jan. 1, 1888, according to the report of the former controller, the debt of the city was \$1,000,000, or \$5,587,364.57.

On Jan. 1, 1892, the debt of the city, according to the present controller's report, amounted to \$10,48,654.00 (you will observe a difference of \$5,400)—an addition in four years of \$5,161,20) to our debt.

The taxpayer asks in vain whether \$5,000,000 went to the suppression of the slave trade, and in 1876 he was envoy extraordinary and minister plenipotentiary for Afghanistan affairs.

He murdered a woman.

NEWBURG, N. Y., April 22.—Fred McGuire, convicted of the murder of Mrs. Amelia Gregg at Middletown last October, has been sentenced to be electrocuted at Sing Sing prison during the coming Monday, June 6.

Prefers the Governor.

COLUMBUS, April 22.—Governor McKinley denies the report sent all over the country that he is a candidate for the seat in congress from the Stark-Columbiiana-Mahoning district.

Dismissed From Office.

NEW ORLEANS, April 22.—Chas. E. Murray, special counsel to the immigration bureau, was dismissed from office by the treasury department yesterday. Murray is a reporter of John E. Mullholand and when dismissed from his position as chief immigration inspector last week. Murray was superintendent of the recent federal census of New York City.

Defalcations in public office, involving thousands of dollars, have been flushed up and the knowledge of the particulars sedulously kept from the taxpayer. The particular, whose disappearance is now a state secret, having rendered himself only on the assurance of a speedy pardon, the particulars of whose crime and the names of whose confederates are not kept secret, has been compelled to force himself into court in order to determine which one or more of a number of existing officials is to be held responsible for the amount of his unaccounted for.

After a long and uneventful trial, the court adjourned to next Monday to hear the case of the other officials.

Dismissed From Office.

NEW ORLEANS, April 22.—Chas. E. Murray, special counsel to the immigration bureau, was dismissed from office by the treasury department yesterday. Murray is a reporter of John E. Mullholand and when dismissed from his position as chief immigration inspector last week. Murray was superintendent of the recent federal census of New York City.

Arraigned for Murder.

BRISTOL, Tenn., April 22.—Anthony Pritchett, colored, shot and killed his wife last night, white drunk.

Forger Arrested.

CHESTER, Pa., April 22.—H. H. Anderson, who is a jeweler in Chester, N. B., to whom the charge of forgery to the amount of \$10,000, was arrested here last night. The prisoner was immediately taken to the police station.

Fire at St. Louis.

ST. LOUIS, April 22.—The Schelp wagon and carriage factory at the corner of Levee and Carr streets, was damaged by fire last night to the extent of \$17,000. Loss fully covered by insurance.

A Suspense Blaze.

SAGINAW, Mich., April 22.—Widman's boiler plant was destroyed by fire early this morning. Loss \$10,000.

MORE SLIGHT SHOCKS.

Northern California Again Visited by Earthquakes.

SAN FRANCISCO, April 22.—Another slight shock of earthquake occurred here at 7:15 last evening. Shocks last evening are also reported from a number of other places in the northern part of the state and also from Carson, Nev. No damage is reported.

Shocks in Chile.

SANTIAGO, April 22.—During the past week details have been received of several moderate and light earthquakes shocks at Talcahuano, Serena, and several coast towns. The predictions of a German scientist relative to these earthquakes are prominently noticed in the press. His predictions were not entirely fulfilled.

The People Exhausted.

WINTERS, Cal., April 22.—In response to the request of the citizens of this town, the Northern Pacific railroad train from Sacramento last night with a load of tents. It arrived here at 9 o'clock. The work of setting up the tents was a pitiful sight. Few lanterns were burning, they seemed unable to make the darkness visible and it was slow work at best. There were many who had to walk miles over stretches of bare ground and even on steps, too tired to heed the danger of another shock.

PULLED HIS GUN FIRST.

A Texas Constable Shot Three Brothers Who Attacked Him.

LAGRANGE, Tex., April 22.—William Neess, constable of the county, yesterday morning shot and killed August Mischer, of Rutersville, and inflicted a deadly wound upon his brother, Carl, who was also severely wounded. He departed for parts unknown on Tuesday last and his place is now filled by a man from Chicago. The constable is a member of the Mischer brothers for carrying a revolver and threatening to kill the constable. The men met in front of the courthouse yesterday and commenced shooting with the above result.

SWINDLER CAUGHT.

One of the Cleverest Confidence Men in the Country Nabbed at St. Paul.

W. B. Bohart, Agent for Swift & Co. at St. Paul, Has Become a Defaulter.

The Amount of His Stealings Not Known and May Reach the Thousands.

TORONTO, April 22.—Chief Murray of the Ontario detective force has arrested at St. Paul, Minn., E. G. Morton, alias C. H. Phalling, C. C. Cole, etc., one of the cleverest swindlers and confidence men in the country. The arrest was made on the charge of obtaining \$1000 from G. W. Scott, a banker of Listowel, Ont., on a forged draft purporting to bear the signature of W. L. Gode, cashier of the First National bank at Mahanay City, Pa.

HAS SKIPPED THE TOWN.

Swift & Co.'s Agent at St. Paul is a Defaulter.

ST. PAUL, April 22.—W. B. Bohart, who has been local agent for Swift & Co., packers of Chicago, is a defaulter and is to be tried in the circuit court on a charge of obtaining \$1000 from the First National bank at Mahanay City, Pa.

SWIFT & CO. HAS BEEN A DEFaulTER.

Mr. W. W. Murray, of the Ontario detective force, has arrested at St. Paul, Minn., E. G. Morton, alias C. H. Phalling, C. C. TRUNK FACTORIES COMBINE.

A TRUNK Factory by All Major Manufacturers in the Country.

MILWAUKEE, April 22.—News comes from Oshkosh and is confirmed by local manufacturers of the formation of a national trunk company, which practically makes a monopoly of the business and will result in the combination of all the large factories in the country. The capital will be at least \$2,000,000, and the headquarters will be at Chicago.

COMPANY WILL MANAGE ITSELF AND OWNERS WILL HAVE A PART IN IT.

TRUNK FACTORIES COMBINE.

ANOTHER TRIPLE TRAGEDY.

A Curious Statement by the Secretary of the Interior.

WASHINGTON, April 22.—A communication was laid before the secretary by President pro tem Manderson, from the secretary of the interior recommending the sending of a telegram and passes through the Indian office who suggested the recent Sioux "ghost dance" uprising.

COMMENCEMENT WITH A CURTAIN.

THE KILLING OF SITTING BULL.

A Curious Statement by the Secretary of the Interior.

WASHINGTON, April 22.—The killing of Sitting Bull was neither demanded nor directed by the department or under its direction.

JOHN W. NOBLE, Secretary.

Reference to the committee on Indian affairs. On the 2d of April, Mr. Noble, a member of the committee, gave a check to Jacob Keifer, a butcher, for \$43, which has been found to be worthless.

It is stated upon unquestionable authority that all concerns in the business in Chicago, St. Louis, Milwaukee, and elsewhere, are in a state of great alarm.

IT IS STATED UPON UNQUESTIONABLE AUTHORITY THAT ALL CONCERNED IN THE BUSINESS IN CHICAGO, ST. LOUIS, MILWAUKEE, AND ELSEWHERE ARE IN A STATE OF GREAT ALARM.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.  
April 22.—Fair weather prevails this morning in  
all parts of the state. The temperature is  
Light rain has fallen over the Ohio valley and  
lower lake region, but none in the West or  
Northwest.

The temperature has risen slightly around  
Lake Superior, but is still lower than elsewhere.  
The highest is 62° at Cleveland, the  
lowest 55°.

An area of low pressure is forming over the  
Northwest, which may change the existing con-  
ditions.

The highest point reached by the thermometer  
yesterday was 65°, the lowest 55°.

DULUTH, April 22.—Local forecast for Duluth  
until 8 p.m. to-morrow. Fair-slightly warmer.  
J. B. H. BROWN, Observer.

We consider April 22—Fair weather  
tomorrow: For Wisconsin: Generally fair,  
clearing in the east; slight cooler, with  
windy, variable winds. For Minnesota and  
the Dakotas: Fair; warmer; winds becoming  
soothly.

THE ST. PAUL CAMPAIGN.

St. Paul will have a lively city cam-  
paign this spring.

Both the Democrats and the Republicans held their conventions  
yesterday, and the opposing candidates are now in the field.

The Democrats have again called upon Mayor R.  
A. Smith to head their ticket and for a  
second time, after announcing that he  
desired to retire to private life, he has  
consented to serve as party, so far as  
the leaders believe that he is stronger than  
the government.

Of course, he is a mere figure head.

When the Canadian people are anxious to make their own  
treaties regardless of England's wishes  
and interests, it is evident that imperial  
federation is but an empty dream, so far  
as Canada is concerned, and that there  
is a national spirit growing which will  
not much longer brook restraint and  
which will at no distant date result in  
Canada ceasing to be a dependency of  
the British crown.

For the first time in the country's history  
women will vote in the presidential  
election this year. That is, the women  
residing in Wyoming will have that  
privilege. It will be interesting to learn  
how they vote. Of course the ballot is  
secret, but who ever knew a woman to  
keep a secret?

Poor Minneapolis is in an awful state  
of mind. Some imaginative correspond-  
ent at Washington telegraphed that  
"Duluth and Milwaukee have joined  
bands to overcome the supremacy of  
Minneapolis in the grain trade," and  
Minnie is trembling in her shoes.

David B. Hill's name has been re-  
ceived with hises in several Democratic  
state conventions recently. What will  
these hisses do in case Hill gets the  
nomination at Chicago? Will they not  
feel like the geese they now imitate?

Two important political conventions  
were held in St. Paul yesterday afternoon,  
but not a line about them. The Herald  
tonight, as usual, gives all the news.  
What is the use of morning papers, any-  
how?

The presidential boom of ex-Governor  
Gray, of Indiana, was yesterday de-  
finitely laid away. It was always of a del-  
icate, weak constitution and its early de-  
mise is therefore not unexpected.

It is said that fragments of Columbus'  
Fairy should be exhibited at the World's  
Fair. They should be accompanied by  
proofs of their authenticity.

The modus vivendi has at last been  
renewed. It was about as difficult as  
it sometimes is to renew a treaty  
of alliance.

Why Does it Exist?

Cincinnati Commercial-Gazette: The  
Prohibition returns in the state's 13th  
electoral district, as usual, a lonely and  
mild anchovy look, and suggest anew the in-  
quiry, why does that party continue to  
exist?

Shock it to Him.

Boston News: If you have a boy that  
the switch does not tame, try a new idea  
and turn a mild current of electricity on  
him in the city at A. Kirs'.

Risk News.

Somerville Journal: A man never  
realizes how much valuable advice his  
neighbors have to give away until he an-  
nounces his intention to build a house.

Everything Goes.

Lancaster Examiner: The girl who  
looks like an angel in any sort of bonnet  
is all right this year.

To Much of a Good Thing.

Bradford Star: The talk about the  
economy of nature is always a queer  
one to the man who has a load for din-  
ner, for there is no economy in the liberal  
use of the fish in the fish; it is sheer pro-  
digality.

A Suggestion of the Month.

Uncinatown Genius of Liberty: If  
some of the candidates in this county  
would make as much of an effort to get  
to heaven as they are making to get a  
whole of itself, it would be better for them  
and other people.

A General Experience.

Cleveland Plain Dealer: Two or three  
millionaires street car monopolists exert  
more influence with the present legisla-  
ture than the entire people.

An Opening for Parkhurst.

Chicago Times: Should Dr. Park-  
hurst's church desert him, he can still  
make a good living showing the town to  
strangers.

Mutual Employment.

New York Telegram: President Har-  
rison is said to have greatly enjoyed his  
last snipe-shooting expedition. So did the  
snipe.

Children Cry for Pitcher's Castoria.

ing illustration of the lawlessness, cor-  
ruption and criminal practices which are  
characteristic of Hillis and Tammany-  
ism. And these are the men who are  
trying to dictate to the Democrats of the  
nation who their presidential candidate  
shall be.

A GROWING NATIONAL FEELING.  
The Canadian people are making a  
vibrant demand for the right to nego-  
tiate their own treaties, independent of  
the British government. Under existing  
conditions Canada is unable to initiate a  
treaty without the permission of the  
officials in Downing street and she cannot  
conclude a treaty until its provisions  
have received the sanction of the  
representatives of the British parlia-  
ment. It will thus be seen that Canada is  
handicapped, because she cannot make  
any commercial treaties that will give  
her special advantages over England.  
She cannot make such a treat-  
ment as the English government  
will not sanction it. This is the position  
in which the Canadian people now find themselves in regard to  
reciprocal trade relations with this country.  
The English government would not  
agree to unrestricted reciprocity between  
Canada and the United States, because  
that would necessarily mean discrimination  
on the part of Canada against England.

The demand by Canada that she be  
permitted to negotiate her own treaties  
is tantamount to a declaration of inde-  
pendence, because that is about the only  
point upon which England exercises any  
restraint. It is almost the last remaining  
vestige of British control of the Can-  
adian government. Of course there is  
given a veto power and is supposed to  
represent the queen, but he is now a  
mere figure head. When the Canadian  
people are anxious to make their own  
treaties regardless of England's wishes  
and interests, it is evident that imperial  
federation is but an empty dream, so far  
as Canada is concerned, and that there  
is a national spirit growing which will  
not much longer brook restraint and  
which will at no distant date result in  
Canada ceasing to be a dependency of  
the British crown.

For the first time in the country's history  
women will vote in the presidential  
election this year. That is, the women  
residing in Wyoming will have that  
privilege. It will be interesting to learn  
how they vote. Of course the ballot is  
secret, but who ever knew a woman to

SUED FOR MALPRACTICE

THE FIRST ARRIVALS.  
Lower Lake Vessels Push Through the Ice.

A Sensational Action Began in the United States Court Against Doctors Harwood and Richardson.

Josephine Bates Wants \$5000 For the Death of her Husband and Alleges Malpractice.

The Story a Most Interesting One in Its Details, But the Doctors Have the Best of It.

The May term of the United States court convenes on Tuesday, May 10. The most interesting case is a damage suit, the details of which, though the papers were filed some days ago, have never been published. The title of the case is Josephine Bates, administratrix, vs. W. C. Harwood and W. W. Richardson, and the amount of damages claimed is \$5000. The complainant's very simple affidavit states that in October, 1891, the husband of the plaintiff was injured while working in the mines and that later on Jan. 16, 1892, it became necessary to make use of chloroform. That the use of chloroform caused the death of the plaintiff, was killed and that his death was the result of the ignorance of the operating physician. Bates left a wife and one child, for the benefit of the suit is brought. The answer to the complaint is simply a general denial of the malpractice alleged.

On a very similar side of the story however is told in the papers filed. Dr. Harwood, one of the defendants, the resident physician of the Minnesota Iron Company and one of the best surgeons in northern Minnesota. The other defendant is W. W. Richardson, also a prominent physician. When the operation in question was performed, the W. F. Sausie came into port and went to the Lehigh dock, followed five minutes later by the Iosco to No. 1 slip. At 12 o'clock the Stafford had arrived and the two ships were joined together, both going to No. 3 Northern. Five minutes later the big Livingstone came in light and went to the Imperial mill and five minutes after her the Fayette Brown passed the pier and was taken to Great Northern elevator No. 1.

## ROYAL MARRIAGES

Prince George of Wales is Now Engaged to the Princess May of Teck.

The Match Said to Meet with the Unreserved Approval of Queen Victoria.

Prince Ferdinand of Roumania and Princess Marie of Edinburgh Will Wed Soon.

LONDON, April 23.—The Manchester Courier asserts that Prince George of Wales is now engaged to the Princess May of Teck, who was the intended bride of the late duke of Clarence. The statement does not create any great surprise as Prince George has made visits to the Tecks on several occasions since the death of his elder brother, and is reported to have shown a very friendly feeling for the princess. A match between the two would be a general authority, meet with the unreserved approval of Queen Victoria and the prince and princess of Wales.

FATALLY STABBED HERSELF.

An Insane Woman Takes Her Life in an Asylum.

WASHINGTON, April 23.—Mrs. Catharine Babcock Shufeldt, a retired army officer, committed suicide at St. Elizabeth's insane asylum Thursday morning by stabbing herself with a piece of sharp steel sheath knife.

Mrs. Shufeldt has been an inmate of the asylum for two years and has always shown an inclination toward self destruction.

The aggregate loss will reach \$100,000.

THE FIRE FIENDS.

Residents of the West End of Louisville Are in a State of Terror.

A Lumber Yard, a Church, Two Residences and Three Stables on Fire.

The Police Unable to Catch the Fiends and the People Becoming Desperate.

LOUISVILLE, Ky., April 23.—The residents of the West End of the city are in a state of great excitement and fear caused by the large number of incendiary fires in that part of the city. Fifteen fires, the work of firebugs, have occurred within a few squares of each other during the past week. The fire find another visit to the West End last night.

In spite of the fact that nearly every resident of that portion of the city has constituted himself into a vigilance committee one, the north end destruction continues unabated. In the last four hours a lumber yard, a church, two residences and three stables were in flames, though by the efficiency of the fire department all of them were successfully extinguished.

The aggregate loss will reach \$100,000.

Although the police are as vigilant as possible, they do not seem to accomplish anything, and many citizens of the West End are threatening to leave the city and put themselves in civilian clothing and having them to lie in wait in some one of the barns in the worst neighborhood. The people are becoming desperate and demand that some step be taken to protect them.

THE MOR WEAKENED.

An Attempted Lynching Ended in a Fizzle.

QUINCY, Ill., April 23.—An attempt was made at midnight to lynch W. J. Jamison, the murderer of Charles Aaron. Joseph Schlotman was chosen as leader and a mob of about thirty made a determined attack on the court house.

When the doors were reached, however, the mob weakened and failed to stand by Schlotman and the murderer still lives.

DAMAGES FOR LIBEL.

THE NEW YORK TIMES SUITED IN A Suit.

SARATOGA, N. Y., April 23.—The jury in the case of Holmes vs. the New York Times, in an effort to libel the plaintiff, found for the plaintiff for \$3500 this morning. Holmes is the local underwriter who had charge of General Grant's remains while they were en route to Europe. This was the somewhat famous Natick Novelty company's case, where Richards offered the most glittering inducements to women who had the time to engage in fancy work and by sending him 50 cents he would return what he had sent him an outfit.

CONVICTED OF FRAUD.

A Man Who Swindled Women Found Guilty at Boston.

BOSTON, April 23.—The trial of Walter S. Richards in the United States district court on a charge of using the mails for the purpose of swindling was concluded yesterday, the defendant being found guilty. Sentence was deferred and he will be sentenced to a term of six months in the penitentiary.

SOONER OR LATER.

THE KASKASKIA RIVER.

MASCOUTAH, Ill., April 23.—The Kasaskia river is again upon the rampage at Alton, taking the miles east of the city. The water is now up in front of the high water mark of two weeks ago and is still rising rapidly. The low lands south of here are again submerged.

Thomas Peters, a Clinton county farmer, attempted to cross the river yesterday and was drowned.

## THE U. S. MARINE BAND

Its Appearance at the Lyceum on Wednesday  
Will Be the Musical Event of  
Next Week.

"A Social Session," "Little Puck," "O'Dowd's  
Neighbors" and the Michigan Glee Club  
Are Coming Attractions.

And Make Up a List That Includes Some Very  
Strong Companies—Some Notes of  
Stage Gossip.

"Simeon" has come and gone. There  
are probably few entertainments now  
being presented or coming which one  
can hear such varied comment. It is not  
the highest character of drama and there  
were many who were sadly disappointed;  
but there were many more who were  
greatly pleased. Those who were at-  
tracted by its beauties praised it extra-  
vagantly. Success is perhaps the most  
practical standard of judgment and columns  
of learned remarks upon its failings,  
from a purely artistic stand-  
point could not alter the fact that it  
drew the largest houses and did the most  
successful business of any company ever  
in Duluth.

Next week the Lyceum will present  
the Marine Band. The concert of  
the Marine Band for Duluth was a difficult  
matter and doubtless large audiences  
will show an appreciation of the effort.  
The Marine Band is the best known  
known band in the country.  
Its appearance will be an im-  
portant musical event, ranking with the  
appearance of Scherzenka during last  
season. The Michigan Glee Club  
will be here Saturday evening. "O'Dowd's  
Neighbors," "Social Session,"

completed list for next week.

THE MARINE BAND.  
Two Concerts to be Given at the Ly-  
ceum.

John Phillip Sousa, the leader of  
the U. S. Marine Band which will give  
concerts at the Lyceum on Wednesday  
afternoon and evening, has finished a  
new composition called "Sheridan's  
Kid." It is a descriptive piece some-

what after the style of "The Charlot  
Race," which he wrote and directed at  
last year's concert at the Auditorium,  
Chicago. The music is said to be original  
and full of brilliant passages and  
was received with great enthusiasm at  
the concert given in Washington recently.  
Mr. Sousa will include this selection in  
the coming concerts.

On the occasion of their first concert  
in Chicago this season, news of that  
city's failure to support its public works  
set the audience with enthusiasm.  
John Phillip Sousa has accomplished more to foster the patriotic  
spirit of the young and to keep awake  
national fervor and advance the standing  
of the United States Marine Band than  
any other musician in the country.  
He is an American, born in Washington  
and has traveled the world, visited domes-  
tically and abroad, and breathed the inspiration of  
works from the center of the nation's history.  
He is a fine-looking, military-toned man,  
with good carriage and unaffected grace.  
The last portion of his life was in-  
mensely gratifying. Something of  
Sousa's called "Good-Bye" was rather en-  
joyable, and the "Star-Spangled Banner," a  
splendid march and fine encore for  
everyman, made a strong impression.  
One of the most delightful of the many happy  
bills offered patrons of the Auditorium  
during this fast escaping season.

"O'Dowd's Neighbors" is a charming  
comedy. She is a light, high soprano,  
and manages floriture with much delicate  
skill. She has a wonderfully pretty way  
of veiling high-sustained notes and touch-  
ing staccato octaves with exquisite  
precision.

Frank Daniels in "Little Puck."  
Mr. Frank Daniels, who came to the  
Lyceum on Monday evening, has a very  
positive individuality, a remarkably droll  
style of acting, a strong comedy face,  
and an irresistibly humorous way of  
delivering his lines that are all unique. The

probability is that it is Frank Daniels'  
marked individuality that is one of his  
winning cards. He virtually has no competitor  
in his peculiar line of comedy  
acting. He is really the foremost figure  
in American farce comedy today.

All laughing-loving people will be glad  
to know he is coming again. He  
brings with him the most entirely  
company of well-known comedians and  
pretty girls, and he will present that best  
of all farce-comedies, "Little Puck,"

with complete new music, songs, dances

and funny sayings. That bright little  
woman and clever comedy actress,  
Bessie Sutton, is still a conspicuous figure  
in "Little Puck," and she will be heard in  
new songs.

"A Social Session," "Little Puck," "O'Dowd's  
Neighbors" and the Michigan Glee Club  
Are Coming Attractions.

from a purely artistic stand-  
point could not alter the fact that it  
drew the largest houses and did the most  
successful business of any company ever  
in Duluth.

Next week the Lyceum will present  
the Marine Band. The concert of  
the Marine Band for Duluth was a difficult  
matter and doubtless large audiences  
will show an appreciation of the effort.  
The Marine Band is the best known  
known band in the country.  
Its appearance will be an im-  
portant musical event, ranking with the  
appearance of Scherzenka during last  
season. The Michigan Glee Club  
will be here Saturday evening. "O'Dowd's  
Neighbors," "Social Session,"

completed list for next week.

THE MARINE BAND.  
Two Concerts to be Given at the Ly-  
ceum.

John Phillip Sousa, the leader of  
the U. S. Marine Band which will give  
concerts at the Lyceum on Wednesday  
afternoon and evening, has finished a  
new composition called "Sheridan's  
Kid." It is a descriptive piece some-

what after the style of "The Charlot  
Race," which he wrote and directed at  
last year's concert at the Auditorium,  
Chicago. The music is said to be original  
and full of brilliant passages and  
was received with great enthusiasm at  
the concert given in Washington recently.  
Mr. Sousa will include this selection in  
the coming concerts.

On the occasion of their first concert  
in Chicago this season, news of that  
city's failure to support its public works  
set the audience with enthusiasm.  
John Phillip Sousa has accomplished more to foster the patriotic  
spirit of the young and to keep awake  
national fervor and advance the standing  
of the United States Marine Band than  
any other musician in the country.  
He is an American, born in Washington  
and has traveled the world, visited domes-  
tically and abroad, and breathed the inspiration of  
works from the center of the nation's history.  
He is a fine-looking, military-toned man,  
with good carriage and unaffected grace.

The last portion of his life was in-

mensely gratifying. Something of  
Sousa's called "Good-Bye" was rather en-  
joyable, and the "Star-Spangled Banner," a  
splendid march and fine encore for  
everyman, made a strong impression.  
One of the most delightful of the many happy  
bills offered patrons of the Auditorium  
during this fast escaping season.

"O'Dowd's Neighbors" is a charming  
comedy. She is a light, high soprano,  
and manages floriture with much delicate  
skill. She has a wonderfully pretty way  
of veiling high-sustained notes and touch-  
ing staccato octaves with exquisite  
precision.

Frank Daniels in "Little Puck."

Mr. Frank Daniels, who came to the  
Lyceum on Monday evening, has a very  
positive individuality, a remarkably droll  
style of acting, a strong comedy face,

and an irresistibly humorous way of  
delivering his lines that are all unique. The

probability is that it is Frank Daniels'

marked individuality that is one of his

winning cards. He virtually has no competitor

in his peculiar line of comedy

acting. He is really the foremost figure

in American farce comedy today.

All laughing-loving people will be glad

to know he is coming again. He

brings with him the most entirely

company of well-known comedians and

pretty girls, and he will present that best

of all farce-comedies, "Little Puck,"

with complete new music, songs, dances

## DULUTH'S SOCIAL SIDE

The Second of the Assembly Parties at the Spalding the Social Event of the Week.

Society is Recovering From its Lenten Dullness and a New Season of Gaiety is Begun.

Brief Mention of Social Events—Some Interesting Bits of News About People You Know.

Society came out of its Lenten sleep last evening and enjoyed the second of the Assembly parties at the Spalding. It was the first of the parties since Easter and is the only large dancing party since before the beginning of Lent. It was not surprising then, that the attendance was large and that all found the affair particularly delightful. Although a dress affair the party was entirely informal. There was no supper but light refreshments were served during the intermission and the efforts of a piano boy were dispensed during the evening. The music was furnished by Hoare's orchestra and as usual was excellent. The Assembly parties so far have been all that could be desired.

They will probably be carried well along into the summer and will be a prominent and pleasing feature of social life for some little time to come.

And speaking of dancing, one is reminded that there is something entirely new, a fad now in the East, in the way of dance. It is called "the waltz" and is practised with a miniature check book with a blank for each dance. She fills them to the order of chosen gallants, tears them out and honors them as they come due. The novel and pleasing idea has terminated their lengthy stay in Chicago and returned to the city.

E. Markell and family who have been spending the winter in the South returned home yesterday.

Mrs. and Mrs. Fred Hartman have returned from their wedding journey and are at home at the Brighton.

The Catholic Total Abstinence society had a very pleasant entertainment at Association Hall last evening.

Mrs. G. W. Billson, of Salt Lake City to attend the marriage of his brother which takes place on the 23d.

Mrs. W. H. Harrington, of Minneapolis, is a guest of Mrs. Pipe at Mrs. Snyder's, 313 West Second street.

Mrs. and Mrs. Fred Hartman have returned from their wedding journey and are at home at the Brighton.

The Catholic Total Abstinence society had a very pleasant entertainment at Association Hall last evening.

Mrs. B. G. Segog has returned from the South. Miss Bertie Kellogg, of Council Bluffs, came from her for a spring vacation.

Mrs. H. C. Crawford, who has been spending the winter at her old home in Parkersburg, will be here next week.

The marriage of Joseph Dworschak and Miss Ada Wendell on Wednesday evening was a pleasant event in German social circles.

A large number of Hardy school young ladies attended the opening performance of Miss Clark and Granger at the Lyceum Friday night.

C. J. Marshall and Miss Clark are to be married this afternoon at St. Paul's Episcopal church by Rev. William M. Barker. They leave this evening for a short vacation.

Company "A" gave its annual ball on Tuesday evening. The attendance was large and the social function of the boys in the band were well adapted to the position of horses.

The Cliff Dwellers entertained at a very enjoyable hop on Wednesday evening at Masonic Temple hall. Like all parties of the association it was a well attended affair.

Miss Athalia Hood, daughter of L. L. Hood, the well known railroad man, and Mr. R. D. King were married Thursday evening at the bride's residence, 1507 Superior street, by Rev. T. M. Ingalls.

The pupils of Mrs. Stocker gave a very pleasant recital Thursday afternoon. Mrs. Taylor, Mrs. Zane, Mrs. Clark, Mrs. Clark, Mrs. French and Linda Woodbridge, and Ruth Markell were among those who took part.

Miss Florence Silberstein entertains the musical Suite" at its weekly meeting this afternoon. Miss Incubator is giving a paper on the "History of Music"; Miss Lottie Harris gives a piano solo; Miss Florence Silberstein gives Schubert's "Mimne"; Miss Madge reads a paper on "Life of Haydn"; Miss Van Valkenberg gives Godard's celebrated "Desire"; Andrew Clark's celebrated "White" will rouse and Mabel White will sing.

The program will be finished with two numbers. Miss Emma Johnson, namely "Spanish Serenade" by Zarembek and Jadashoff's "Andenken".

**Friends in Council.**

The "friends in council" entertained very pleasantly last evening at the home of Mr. and Mrs. McGonagle. There was about thirty-five present and the entertainment was passed away in the enjoyment of the performances. During the evening there was a short program consisting of a duet by Miss Moody and Miss Field, a duet of "Morning Kite," by Miss Everhard and Miss Marion, and a duet for piano and violin by Miss Field and Mr. McGonagle.

**Hardy Hall Reception.**

Mrs. Alice Freeman Clark, well known as one of the prominent women educators of the country, with the guests of Miss Kate Hardy, part of next week. On the evening of Friday, April 29, she will lecture at Hardy hall and a reception in her honor will be given from 9 until 10 o'clock.

Mrs. Clark is so well known as a woman of unusual ability that some information concerning her life will be interesting. Alice Freeman was born in New York, and her mother died when she was six years of age. She was unusually bright as a child and gave early evidence of her future brilliancy. She was determined to have a thorough education, going to leading foreign universities. At 16 she was ready for college and was graduated from Michigan university four years later. A few years were spent in teaching in the high schools of Michigan, then she was called to Wellesley as professor of history. This position she filled so acceptably that the world was astounded. Mrs. Clark was unanimously appointed. Though only 28 when she entered upon her duties, she fulfilled them so wisely and with such grace and tact that she made Wellesley famous.

## The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.:  
A light rain is falling in most  
all sections. Light snow is falling at Mar-  
quette, and the slush has fallen at Helena,  
Mont., and Milwaukee. The weather is  
some hours.

The temperature remains about stationary ex-  
cept over Lake Superior and north of it, where  
it is still cold, and the air is full of the sense of  
high pressure, which was not visible yesterday.

A strong wind from the northwest over the entire  
northeast, but it is not probable that it will  
last long. The temperature rose to 67° here yesterday.  
The highest recorded since the birth of October  
last is 68° at Milwaukee, N. Y. The wind  
rose to 72°, while at Port Arthur it only reached 52°.  
It fell to 50° here yesterday morning.

## FOR DELEGATE-AT-LARGE.

There is another Richmond in the  
field to secure the support of St. Louis  
county Republicans for delegate-at-large  
to the national convention. Heretofore  
only the names of Senator F. H. Daugh-  
erty and John McKinley have been men-  
tioned in this connection, but it seems  
that there is another aspirant who is  
conducting a quiet canvass, and the fol-  
lowing from the Minneapolis Tribune  
will show:

"Dr. Fred Barrett, editor of the Vermillion Iron Club, whose speech at the recent League club banquet at the Guar-  
antees Lodge was so widely commented upon, is mentioned as a possible dele-  
gate-at-large from the northern part of  
the state. Dr. Barrett will come into the  
convention backed by the St. Louis  
county delegation, and his friends pro-  
pose to make him a fight to win."

This will make a very pretty three-  
cornered fight, which will give a little  
life to the coming Republican county  
convention, which under other  
circumstances would be a  
functorious sort of affair, owing  
to the animosity of feeling re-  
garding the presidential nomination.

The present outlook is that Senator  
Daugherty will secure the honor. His  
friends are "in the saddle" in this county  
and he is supported by a combination  
that generally wins in St. Louis con-  
vention.

None of the candidates, however, are  
likely to be seriously disappointed, if  
they fail to secure credentials to the  
Minneapolis ratification meeting. The  
support of St. Louis county alone will  
not secure the honor and it will be  
necessary to do considerable work in the  
other counties in northern Minnesota to  
obtain sufficient votes in the state con-  
vention.

## ST. PAUL'S HEAVY DEBT.

The political convention in St. Paul  
on Thursday emphasized some points  
regarding the reckless manner in which  
the Saintly city has been running into  
debt that must give the taxpayers  
considerable anxiety. For instance, it was  
asserted that, on January 1, 1888, the  
debt of the city amounted in all to \$5,-  
587,364.57. On January 1, 1892, just four  
years later, the city debt amounted to  
\$10,748,555.01. This shows an increase  
of \$5,161,201 to the city's debt in four  
years, an average increase of \$1,290,322  
per year. But this is not the worst  
feature of the case, according to the  
resolutions adopted by the Republican  
convention, which assert that there is no  
evidence to show where this in-  
crease of \$5,000,000 has gone.

Assuming, however, that all the debt  
thus incurred by St. Paul can be satisfac-  
torily accounted for, a total debt of \$10,-  
748,555 is a pretty heavy load to be borne  
by a city of St. Paul's population. It is  
no wonder, therefore, that many people  
are finding the burden too great to  
bear and are disposing of their St. Paul  
property as quickly as possible and are  
coming to Duluth.

## 'FAKE' ADVERTISEMENTS.

The newly vested proprietor of the  
News evidently has a poor opinion of the  
value of its advertising columns, and  
probably his opinion on this point is en-  
titled to some consideration because he  
is in a position to judge very accurately.  
He is at present filling the "want col-  
umns" of the News with advertisements  
clipped from the St. Paul and Chicago  
papers and inserted free of charge,  
course, because the people who are rep-  
resented as the advertising in the News  
never ordered their publication. The  
sole object of this plan is to pad the  
"want columns" and make a better show-  
ing.

The vested proprietor has noticed that  
the death of Eugene H. Cowles, sec-  
retary of the Leader Printing company,  
of Cleveland, is announced. Mr. Cowles  
will be long remembered as the inventor  
of the overhead trolley system of pro-  
pelling street cars by electricity.

It is not necessary to revel in vice in  
order to become acquainted with it.  
This is where Dr. Parkhurst made his  
mistake. He did not know where to  
find the line.

Senor Manderson declares that the  
root of all our Indian wars is bad food.

It is strange therefore that the occu-  
pants of boarding houses are so peace-  
ably inclined.

The Herald is the popular medium  
for "wants" in Duluth and he  
has seen that the News suffers in com-  
parison. Hence his mighty intellect  
conceived this brilliant idea of padding  
his own columns in an endeavor to  
create a false impression. There were  
thirty-eight of these "fake" advertise-  
ments in the News this morning, occupy-  
ing over a column of space. This is a  
"cheap John" trick that will deceive no  
one, but it is indeed surprising that such a  
high-toned journalist as the vested  
proprietor claims to be should descend  
to devices of the "fake" order. It shows  
how one deception will lead a man into  
the commission of other deceptions.

## THE HERALD'S ADVANCE.

The Herald appears in enlarged form  
again this evening, in order to meet the  
demands for advertising space made by  
the merchants of Duluth. The interesting  
advertising columns will show all the progressive and enter-  
prising business men of the city are  
represented in The Herald. There are  
no "fake" advertisements either. There  
are no advertisements intended merely to fill  
space. They are all bona-fide business  
announcements, and they are inserted in  
The Herald because the business men  
find it is the best medium to reach all the  
people.

The Herald is now the largest news-  
paper in Duluth. That it is also re-  
garded as the best the present exten-  
and constant increase of its circulation  
among the masses of the people testify.  
During the past two weeks the pressure  
of advertising has been so great that  
The Herald has appeared almost every day  
in eight column form, while on Saturday  
its regular size has been doubled. It  
appears today in a form that it will  
probably be compelled very soon to  
issue every day to accommodate its large  
advertising patronage and at the same  
time to give a proper amount of space to  
the news of the day.

The record of The Herald is another  
evidence of the constantly increasing  
popularity of the afternoon paper. In-  
deed, this is the most striking feature of  
modern journalism, and the following  
statements by Col. John A. Cockerill, of  
New York, one of the most experienced  
morning newspaper men in the country,  
show how the subject is now regarded  
by newspaper men as well as the readers.  
Col. Cockerill says:

"Doubtless the highest evolution of  
the newspaper of the immediate future  
will be the daily newspaper, entirely pre-  
pared and exactly edited afternoon  
journal, which closes its local  
news of the day before the readers  
close, and yet by the use of the tele-  
graph and cable lines gathers the world's  
news so well, owing to difference of  
time that the morning newspaper must  
resort to the padding and silly sensation  
to compete with it even in its own  
field."

That The Herald comes well up to the  
standard set by Col. Cockerill, so far as  
Duluth is concerned, is patent to every one.  
When the record of the day's happenings  
is closed in The Herald there is nothing left  
uncovered or omitted, and the morning papers are compelled to re-  
hash the news that has already appeared in  
The Herald or to fill their columns with  
sensational "fakes." In fact the  
question becomes more pointed every day:  
What is the use of morning papers?

The bank clearings of Duluth during  
the past week showed an increase of 9.3  
per cent over the corresponding week of  
last year. During the same time the  
increase of Minneapolis' bank clearings  
was only 0.6 per cent, New York, Kansas  
City and Boston showed considerable  
decreases. These facts again show that  
Duluth is one of the most prosperous  
cities in the country.

The bank clearings of Duluth during  
the coming marriage of a retired and very  
wealthy merchant, aged 70, to a pretty,  
but poor school teacher, aged 22. The  
dispatch adds: "The groom's wedding  
gift to the bride will be \$5,000 and her  
mother will be presented with \$25,000."  
Yet modern civilization denounces the  
countries where men can buy wives.

The Hartford Courant has thus com-  
menced the Boring sea correspondence  
into a nutshell—"I won't," said Lord  
Salisbury. "Well, then, I will," said Presi-  
dent Harrison. "Another triumph of  
British diplomacy!" say the "Tory" news-  
papers. "Shucks!" says Uncle Sam!

Lieut. Totten has given the world  
seven years of grace before the final  
wind up, but he says that those seven  
years will be years of trial and trouble.  
Surely the people are sufficiently aff-  
licted now by Lieut. Totten's absurd  
prophecies.

The death of Eugene H. Cowles, sec-  
retary of the Leader Printing company,  
of Cleveland, is announced. Mr. Cowles  
will be long remembered as the inventor  
of the overhead trolley system of pro-  
pelling street cars by electricity.

It is not necessary to revel in vice in  
order to become acquainted with it.  
This is where Dr. Parkhurst made his  
mistake. He did not know where to  
find the line.

## POSTOFFICE ROBBERY.

The Missing Money Had Been Remitted by a Clerk Who Forgot the Occurrence.

Mr. Rees Will Endeavor to Get Satisfaction for Being Compelled to Spend a Night in Jail.

A Disgraceful Matter Settled and a Young Man's Innocence Was Being Entirely Established.

Last evening the mystery surrounding the robbery of the money till at the post office at West Duluth on last Wednesday, was dispelled by a receipt from the department at St. Paul for the money, the taking of which Mr. Rees was accused of, and for which he spent a night in the city jail.

The clerk in the post office had remitted the amount \$125. to the department at St. Paul, and had forgotten the occurrence, and afterwards sent a duplicate remittance, and the mistake was not discovered until the receipt was received yesterday morning.

John Mallory regrets the mistake, and the only reason Mr. Rees was arrested was because he was the only man who visited the money order office at that time who transacted no business there.

Mr. Rees has secured legal advice and will try and get satisfaction before a jury.

Merrill & Ring will commence sawing their new mill Monday. Work at their big boom is well under way and will be completed in a day or two.

Twenty-nine ears were turned out and shipped from the paint shop at the car works this week. The shops are turning out six complete cars a day, have a very large force of men at work.

Habberland and family left yesterday for Lanesboro, Minn., to visit relatives.

Mitchell & McClure have a tug boat at work breaking up the ice around their mill preparatory to starting up the mill.

Mrs. Indley's way figure shop, given by the Baptist church next Friday evening, promises to be a very enjoyable affair. About 150 wax figures, life size will be presented and a fine musical program will be given.

John Helgeson, who was arrested for arson, had a jury trial yesterday afternoon, and his trial will be adjourned elsewhere at the time of the fire, and the evidence being wholly insufficient to convict, he was discharged.

The dance last night at Hoyt's hall given by the Assembly was as usual a very gay affair.

The Citizen of Monistone, Mich., is in the city and may decide to start a newspaper at this place.

All Republicans are requested to be at the city hall this evening for the purpose of organizing a political club.

The Bay View Land company, in order to give the workingman a chance, has decided to sell lots on Bay View Heights on the following easy terms, viz., to offer credit to the buyer for two and one-half monthly payments. This places a lot in this handsome residence suburb within the reach of every mechanic.

H. L. Magoun, the Sun Vapor Light man, is in the city looking after the company.

There will be two extra pouches of mail from and to West Superior and this place, commencing next Monday and at this place \$1.50 a m. and 45¢ p.m. and return on the 11:33 a.m. and 3:30 p.m. Short Line trains.

Edwin Knight, a newspaper man from New York state, has arrived here with his family and will probably secure an interest in the West Duluth Sun.

Church Notes.

Baptist—Rev. E. J. Brownson, pastor. Morning subject, "Forsaking and Receiving." In the evening the pastor will give an illustrated sermon on "Joseph Asleep in Egypt."

Congregational—Rev. Wm. Moore, pastor. Morning subject, "The Raising of Lazarus." There will be a band of Worship prayer meeting in the church at 3 o'clock in the afternoon.

To Decide a Bet.

A subscriber sends the following question to The Herald: "Will you please answer through your columns to decide a bet, the question, when did the first boat of the season of 1892 arrive from the lower lakes at Duluth, on April 21 or 22?"

April 22 is the correct date. The Roby, the first boat in, arrived at 12:35 on the morning of April 22.

A New Book Store.

Miss Anna Chamberlain, so well and truly known from her frequent connection with the firm of Alberton & Chamberlain, begs leave to announce to the people of Duluth and vicinity that she has secured the old stand, 323 West Superior street, and has stocked it with an entirely new line of everything usually found in a first-class book store, and that she will be in charge and be prepared to sell all kinds of books. Miss Chamberlain is now in the East, where she has been particularly fortunate in securing a stock of office supplies that will do away with the necessity of writing home for what we want, which has been prevalent here in the past, and you can always find the latest books and all the latest novelties in cards, etc., at the new store.

## OUR IRON INTERESTS

The Biwabik Property Will be Leased to Eastern Capitalists Who Will Operate the Mine.

Two New Companies Which have been Organized This Week—Their Officers and Incorporators.

Some Notes of News Regarding Mining Matters Upon Both the Northern Minnesota Iron Ranges.

A deal has been practically closed by which Mr. Kimberly, of Sharon, Pa., a wealthy manufacturer, and iron miner will assume the operation of the Biwabik mine, under a lease of all its properties. It is said he will also lease the Shaw and perhaps the Hale mines. Mr. Kimberly recently visited Duluth and while here went up and looked over the range and especially the properties which have been leased. Mr. Kimberly is reported to be a man who has had, so to speak, right hand man on the Mesabi range and it is said the deal was made through him. The moral effect of this is very great. It may seem anything which has happened since development on the Mesabi began, will give the general public faith in the magnitude and importance of the new field. Kimberly is one of the most iron men in the country. His positive endorsement of the value of Mesabi iron properties for actual mining will be of the greatest value.

## SOME NEW MINING COMPANIES. The Outcrop and the Licking Companies Organized.

The Outcrop Mining company has been organized by George F. Schilling, general manager Germania Life Insurance company, John F. Whiting and George Lill, of Chicago; David A. Case, of Minneapolis, and Capt. Frank Barrett, of St. Paul. Captain Slocum. The above named gentlemen are the board of directors. Mr. J. F. Whiting is president; George Lill, vice president; David A. Case, second vice president; C. A. Slocum, treasurer, and C. A. Hutchins, secretary. The Outcrop company's lands are in section 35, township 5, range 24.

Another new company is the Licking Mining company, Capital \$300,000. Incorporated April 1, by Mr. Wm. McLean, ex-Governor Campbell, Allen W. Thompson, Judge Brister, Col. Newton, Dr. Palmer, Dr. George W. Boerseler, C. F. Nester, of Ohio, and Hon. W. H. Braden, D. H. Moon, of Allen, Thompson & Co., Frank Barrett and Alvin Michaud, Duluth. The president is W. V. Marquis; vice president, Daniel H. Moon; secretary, Frank Barrett; and C. A. W. Bradley. The company owns state lands aggregating 5,720 acres, located in nearly every town and range on the Mesabi.

R. J. Hayes, of Mesaba, has commenced explorations in section 2, 59 1/4.

Assignments of leases on the new 1/4 of section 44, 59 1/4, to Mr. E. B. Humphreys, John McKinley and John G. Brown to the Charleston Iron company, and from E. B. Humphreys, John McKinley and John G. Brown to the same company for lots 1 and 2, section 48, 59 1/4, and the 1/4 of section 33, 59 1/4 have been recorded.

The Minnesota is now shipping ore to two harbors at a rapid rate. Six trains daily are now in service. The company has nearly 260,000 tons of ore in its stock piles.

The Minnesota Iron company says the iron plant is negotiating with eastern manufacturers for a new smelting plant, nearly the duplicate of the one now in the company's two years ago. The engine's cylinders will be 22x8 inches and the diameters each ten feet in diameter. The exact date of the new engine house has not been fully decided, but the plan will do the smelting.

The present electric plant of thirty-two motors is to be used entirely for the mine's requirements and its duplicate is also among the new machinery and equipment to be added this summer.

Capt. Edgar Brown it is said has practically fulfilled his contract to show up 500,000 tons of ore on the Canton property.

Joseph Sellwood, manager at the Chandler, stated to a Journal representative that he expected to increase the Chandler's tonnage this season 200,000 tons. The burning out of No. 1 last threw them back fully 30,000 tons, but it is expected the half million mark will be reached before the close of navigation.

## COLLEGE LOVES HIM

## A STATUE OF THE GREAT PROF. PHELPS PROPOSED.

A Ready Response From Alumni and the Public—Brief Sketch of His Career—His Services for Humanity—The Days He Had for Years Foreseen

The proposition to erect a bronze statue of Prof. Phelps at Dartmouth college, will meet with ready response, not only from the sons of Dartmouth and members of the medical profession everywhere, but also from thousands of people, who will be too glad to contribute their mites toward the accomplishment of the public work. Even Dartmouth alums of more than a century ago, will be pleased to see the keeping up of the traditions of the college, next to that of the president, as Edward Eliot, Phelps, M. D., LL. D., professor of materia medica; and every younger graduate has admired the complete museum of medical botany which Prof. Phelps has collected.

But it was the world-famed discovery of Prof. Phelps of an infallible cure for consumption, that result from an inspired nervous system, and impure blood, which has endeared the great doctor to the world, and made his life an era in the practice of medicine.

Prof. Phelps was born in Connecticut in 1813. He graduated from the military school at Norwich, Vt., in 1820. He

studied medicine with Prof. Nathan of New Haven, Conn., and graduated in medicine at Yale in 1824.

His unusual talent soon brought him recognition and prominence among his profession, but in 1833, he was invited to the professorship of anatomy and surgery in the Vermont University. In 1841 he was appointed lecturer on materia medica and medical botany in Dartmouth College. The next year he was chosen professor of the chair vacated by Prof. Robby, and occupied the chair, the most important one in Dartmouth College, for a few years before his death in 1880.

He had for years foreseen the dangers of the American way of living. He went about to find a scientific, common sense remedy to cure the common evils that plagued the nation, and he found in an unknown and state of the nervous system, and within a score of years he seemed to be sweeping over the country like an epidemic.

He gave to the medical profession a celebrated remedy, which has since come to be known the world over as Paine's Celery Compound.

Prof. Phelps' prescription, which ever since has freely used and requested by our designer and health milliner, is the best that ever left New York City. Ladies who have bought millinery elsewhere in the city now come to us to have their hats made.

It was demonstrated beyond doubt that Paine's Celery compound would cure一切恶疾 and exhaustion, neuralgia, sleeplessness, dyspepsia, and all blood diseases.

It was as harmless as it was good, and it is the only safe and reliable medical preparation that the company has placed where the general public could secure it, and thousands of people have every day proven the wisdom of this good advice.

The recent advice of Com. Howell to Secretary Blaine, to use this compound, which the commodore publicly said had saved his life, and published testimental of Major McPherson, the treacherous poet author Hardy, George Wright, and other men of national reputation, has brought the compound into special favor.

As a well known physician in this city says: "Paine's Celery compound is not a patent medicine; it is not a sarsaparilla; it is not a mere tonic; it is not far beyond them all as the discoverer is superior to cheap glass." LaVaque's.

## HINTS FOR HOUSEWIVES

The Proper Mode of Arranging for a Formal Dinner Intended for About Ten Persons.

Long Dinners and Many Courses are Tabooed and Quality and Service are More Considered.

New Methods of Cooking Asparagus, One of the First Vegetables Which Will Be Here.

A correspondent asks for some hints for a formal dinner. As a basis we will take a dinner for ten persons. Ten will give the hostess and host their proper places and will allow the men and women to come alternately—for that reason it will be seen that twelve is an inconvenient number, and eight also as well as sixteen. Happily the day of long dinners and many courses is over; in fact they are now considered bad form, quality and service being deemed of much greater importance than profusion. Experts at planning such meals toots and pieces are the order of the evening, an hour is now deemed quite long enough for the most formal dinner; and it is now considered quite the thing to show off as much as possible, especially one very "smart" hostess even boasting that she can dine her people in forty-five minutes. But there is moderation in all things; an hour at the table with the half dozen dishes, the post-prandial wines and cigars brings the entertainment to within an hour and a half—quite enough for enjoyment and not undue fatigue.

For such a dinner, nine or ten courses, including oysters and bonbons, would be the correct number. These should consist of oysters or fish, soup (only), one or two meat courses, fowl, game, or the like; fish, roast; two entrees; game; salad; ices, and fruit.

There should be two knives, three forks, and a spoon at each place. Some one has cleverly observed that "everything nowadays, except 5 o'clock tea, is eaten with a fork." There should be also a water goblet, claret sherry, hock and champagne glasses, and between every two plates a silver or china salt cellar. The linen should be of double damask of the finest quality, plain and faultlessly gathered. In the best houses the dinner-table is always dignified. Large dinner napkins must be folded simply in a three-cornered pyramid, holding instead of a butter and footman, it is better to give two small dinners, neatly served by a couple of waiters, than one big spread with waiters from a caterer. As regards this, an Englishman, who has been much dined in New York, remarked to his hostess, after she had given him the bill: "How much the servants over here resemble one another!" Still it is often necessary to supplement one's servants, and in that case your own butler should invariably fill the glass. As to the waiters, this is a mooted question nowadays; many people consider it old-fashioned to serve different waiters for different courses, what used to be the regular custom. The old house criers to the old order of things, which was as follows: Hot with raw oysters, sherry with soup, German wine with entremets, claret with fish, hock with roast, ending up with maderia and port. Now nous avons change tout cela in the "smart set." Fortunately for our digestions, it is not the fashion to fix wines any more and we have almost an affected simplicity in the modern dinner. Last, but by no means least, see that your cafe noir is perfect. A well-known epicure hath it that "there are two keys notes to a dinner, i.e., good soup and good coffee."

Asparagus, one of the first vegetables of spring, will soon be here. There are several ways of cooking this vegetable besides the familiar one of boiling. It may be cooked in a similar manner to the oven. For this purpose boil a bunch of fine asparagus for twelve minutes. Lay it in a baking dish. Moisten it with half a cup of the water in which it was boiled. Cover the top with a layer of butter, then with salt and pepper, sprinkle a tablespoonful of fresh bread crumbs over the top with a tablespoonful of butter or oil. Bake in a moderate oven for fifteen minutes. Cold boiled asparagus is very nice served as a salad with a French dressing, or with the following sauce: Pound the yolks of a dozen eggs to a paste, add two teaspoonfuls of good vinegar, a salt-spoonful of salt and the half the amount of pepper. Add an onion minced fine. Toss all together thoroughly and pour it over the cold asparagus.

The Canal Tunnel. W. C. Sargent, Col. Graves and the Eastern men interested in the canal tunnel and terminal scheme were expected to arrive in town late this afternoon. The ground will be entirely gone over with the local men who are interested in the deal and by Monday the formal contract for the company will be prepared and submitted. The details of the scheme are not yet made public, the general outline of the plan is already published.

A DAY FOR DIVORCES

Two Divorce Cases Were Disposed of Today by the Judge of the District Court.

Special Term Calendar Tried Before Judge Ensign—Routine Disposition of the Cases on Call.

Real Estate Tax Cases on the Regular Calendar Disposed of Some District Court Notes.

Judge Ensign heard both the regular and special terms of court this morning. In the regular term the disposition of the real estate tax cases was continued.

The special term calendar was rather longer than usual. The routine disposition of the cases was as follows:

August Rehein vs. Otto Reichter, continued; Chapin Wells, Hardware company vs. E. C. McMinn, judgment for plaintiff; in matter of paper for receiver for Duluth Furniture company, terminated; continued; Oscar R. Hains vs. Wm. McKinley et al., continued; Robert Forbes vs. C. P. Sullivan, termination granted; in the case of the insurance business.

The greater part of the morning was taken up with the case of Florence Gephart vs. Henry Gephart. The trial of the wife of the deceased, a cruelly treated woman, was disposed of. A number of cases where the husband was abusive are specified. On Jan. 15, 1891, at the house of Mrs. Green, on Second street, she alleged that Gephart struck his wife in the face, and then struck her on the head with his fists. On Dec. 23, 1891, she alleges that she was at 23 Twenty-first avenue east taking care of a sick sister, when her husband came to knocked her down. She further alleges that he has frequently accused her of being a bad mother and entered the house of neighbors and called her wife names.

She further alleged that he has been afflicted with a loathsome disease, and Mrs. Gephart were married in Duluth on May 16, 1885. The case was concluded today this afternoon and the man will be ready for launching in a month.

The losco on her present trip ran from Duluth to Manitow 135 miles, in ten hours.

Temporary repairs have been made to the Joe Dudley at Marquette and she leaves tonight for Duluth.

The S. B. Barker will return Sunday and will be here next day to take her trip on her return she expects more rain.

TENTH YEAR.

MONDAY, APRIL 25, 1892.

FIVE O'CLOCK EDITION.

THREE CENTS

A Duluth Clothing House Exclusively Owned and Controlled by Duluth Men.  
Our store is open every Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, and Sunday evenings and closed other evenings at 6:30 p.m.

EVERY Department fully equipped for spring trade. Come and see our New Goods, at the same time get your part of the great Bargains. The values we're giving for the money are satisfactory.

To have looked into our old store Saturday, you'd have thought it was either a town meeting or an auction sale. It was almost both. There were enough of buyers to make a town meeting, and the goods were going at auction prices. Live scene. Active business.

Not surprising. The goods are very attractive. The new colorings in young men's suits are really handsome. The prices very reasonable, \$12, \$15, \$16, and \$18.

There is a mark of individuality about our Spring Overcoats that is just about as good to us as a copyright.

\$15 to \$25 for those silk-lined.

\$8 to \$25 for those not silk-lined.

Everything latest in Spring Neckwear. We're doing Neckwear better; we have a new man picking it out for us. We'll keep on doing it better.

Selling our goods at lowest prices and at the same time advertising extraordinary, making ourselves known through a useful medium, viz., to every purchaser of a Boy's Suit (regardless of cost) a Handsome Pocket Knife or a Spangled Bass Ball and Bat. To every purchaser of \$10 or over a Beautiful Clock, and to every purchaser of \$15 or over a perfect time keeping Watch.

## A TRAGEDY IN OHIO

Jealousy Prompts a Man to Fatally Shoot His Wife and a Saloonkeeper.

Having Carried Out His Murderous Plans He Then Shoots Himself and Dies.

Belief That the Wife was Acting Improperly With Another Man was the Cause.

Was Probably Drowned.

PROVIDENCE, R. I., April 25.—Yesterday afternoon Lucy Foster and her husband were having a row at their home in the Fourth ward, and the woman had a gun with which she was threatening her husband, Andrew Saunders, an aged man, apparently 80 years of age, who is a saloonkeeper and who shot and killed his wife, having the top of his head blown off.

The woman claims the killing was accidental and gave herself up, to the

authorities.

Received an Old Recuse.

PROVIDENCE, R. I., April 25.—George Seward, aged 18 years, J. M. Trout and Dr. J. M. Hain have been arrested charged with the theft of \$2,000, in a safe in a room in the basement of an old residence living in Mansfield, Mass. The valuable had been concealed in barrels, trunks and tomato cans about the house.

Was Probably Drowned.

BOSTON, April 25.—The dead body of Stillman Engell, doorman of the Senate, has been missing since

August 24, was found about 6 o'clock last night on the Charles River flats near the Harvard bridge, Cambridge. The body was badly decomposed, but there were no marks of violence upon it, nor any signs of foul play.

Reported Death of Trustee.

NEW YORK, April 25.—A Philadelphia special says that Special Agent Horton, of the department of justice, has been in that city during the past week hunting up persons against whom he has understood that his office has special evidence to the sugar trust and national cordege trust. From Philadelphia, Horton will go to New York.

To Abolish Sunday Trains.

PITTSBURG, Pa., April 25.—Robert Pitcairn, of the Pittsburg division of the Young Men's Christian Association yesterday said he favored the abolition of Sunday trains, wherever practicable and proposed to use his influence in this direction.

War in Prospect.

NEW YORK, April 25.—A Panama dispatch says that war is imminent between the United States and Spain.

Spanish negroes from Carthagena, who invaded the district and appropriated ivory, nuts, rubber and other produce and drove out the Indians from that territory.

Count Lorenzo Dead.

PARKVILLE, Mo., April 25.—Count Charles Ferdinand Latriolle de Lorient is dead. He was born in 1814 and was chiefly famous as the commander who led the French expedition against Mexico in 1862, which resulted in the formation of the Mexican empire under Maximilian.

Cows and Horses Burned.

PARKVILLE, Mo., April 25.—The four large stables on the dairy farm of the Cheshire Improvement company, to whom Senator Hill has given his land, and object of every soul traveling the densely populated streets. Money is the prevailing conversation from the poor to the rich, and the topic is one that is not to be forgotten. There are thousands of men in New York without a dollar or any immediate prospects of getting one, yet they dress well, appear well, and will talk about their hats, "to-morrow" and immediate satisfaction. It is a common thing, so I am informed, to see several well dressed gentlemen (not nobles) who have got the want of money, who get at the want columns of the morning papers first.

Rev. Dr. Parkhurst is as much of importance here now as the winner of a cake-walk. No one can now go to the fair and the future will show how startling a stirring up will be.

"Tenderloin" district is now a model of morality. It is a question, however, whether the party will be more or less benefited by his investigation.

He saw the elephant, but the animal evidently观念ized his clothes in its mire.

Small Pox in Gotham.

NEW YORK, April 25.—Frank Burke, 29 years old, was taken from small pox this morning at 237 East Fifth street, a house where several persons afflicted with the dread disease have already been found. One death from small pox is reported this morning.

WHEAT DULL BUT STRONGER.

Very Little Trading on the Duluth Board Today.

The wheat market opened stronger today but owing to lack of news from outside markets, owing to the wires being in bad condition, there was very little trading. The close was 3/4 above the last figures on Saturday. U. S. WEATHER REPORT, Duluth, Minn.  
April 25.—Fair weather in all sections,  
except the Northwest, where a storm of slight  
energy is central and nearly stationary.  
It is not likely to move, but it is not  
probable, and fair weather will continue.Some time ago, the snow has been taken  
place at the remaining cold and around Lake  
Superior. The lower part of the St. Mary's is  
thawed, as is probably the wind  
changing.The precipitation during the past twenty-four  
hours has been light, except over Dakota, where  
heavy showers have fallen.The temperature yesterday was  
34°, the lowest last night 28°.DULUTH, April 25.—Local forecast for Duluth  
until 8 p.m. April 26: Fair; slight  
change in temperature.

B. H. BEASLEY, Observer.

WASHINGTON, April 25.—Forecast till 8 p.m.  
tomorrow: For Wisconsin: Generally fair  
followed by slight change in temperature.  
For Minnesota and the Dakotas: Light  
showers preceded by fair in Minnesota;  
southeast gales.

"THE HIT BIRD FLUTTERS."

The vested proprietor of the News is  
angry. He has lost his usual calm and  
unruffled state of mind, and is now real  
mad. The cause of this sad change is  
the expose by The Herald of the man  
in which he has been padding the "want columns" of the News with "fake"  
advertisements purporting to come from  
New York, Philadelphia, Chicago, and  
the Twin Cities. He does not like the idea  
of being presented to the public in his  
true colors. The Herald did not expect  
that he would like it. No man, who would in  
sult "one of the finest" by offering him  
such a paltry sum is a fit subject for criti-  
cism.Ex-Governor Ames of Massachusetts  
was defeated last week for delegate-at-  
large to the Minneapolis convention, and  
on Thursday William L. Ames, another  
member of the same family, was defeated  
for the Republican nomination for St.  
Paul. This is evidently an off year for  
the Ames family.Scott's Emulsion of cod-  
liver oil is useful even  
though it is not offensive; it  
is pleasant to some, especially  
children. It is not often a  
tax on digestion.Scott's Emulsion is cod-  
liver oil made far more ef-  
ficial.There is a little book on

unseasonable weather, making another  
short crop year possible. Such a state  
of things could not fail to be beneficial to  
the farmers in the wheat raising dis-  
tricts of America.The Kansas Democrats have declared for  
Cleveland, but he cannot get the  
electoral votes of Kansas, if he is nomi-  
nated. Such a thing is as impossible as the  
idea of the Republicans carrying Texas.That this is a great and prosperous  
country is shown by the amount required  
to convey its correspondence and other  
matter. The postoffice appropriation for  
the year amounts to \$80,000.The Nelson boom for governor ap-  
pears to have spent its force. Lieu-  
tenant Governor Ives or Attorney General Clapp will probably be the Repub-  
lican nominee.No doubt it is true that "the future will  
take care of itself," but nevertheless Mr.  
Cleveland will look forward with  
anxiety to the Chicago convention.Both Washington and Jefferson had  
red hair. The red headed man has  
therefore a right to boast of his fiery  
hair.Hill has developed more strength in  
Massachusetts than in any other North-  
ern state, except New York.Superior is happy again. With the  
opening of navigation it has ferry com-  
munication with Duluth.The Chicago city council is certainly  
in the swim. One of its members is pro-  
prietor of a bath house.The Donnelly-Hompe mud slinging  
contest is over and both are pretty lib-  
erally bespattered.From present appearances, the May  
flowers this year will not be the result of  
April showers.Bay View Heights.  
Lots for sale from \$200 to \$500. Terms  
one-half down and balance in twenty-  
two monthly payments, without interest.  
Apply to Bay View Land Company.The company offers to construct a tun-  
nel under the ship canal for railroad,  
street car and team traffic, and to pay  
one-half the cost and also float the city's  
bonds to pay the other half. Until the  
tunnel is completed, a railroad ferry will  
be used, similar to those in  
operation between Detroit and Windsor.  
One dock is to be built at once  
on the harbor side of Minnesota Point,  
and the plans also include the construction  
of a bridge from the lower end of  
Minnesota Point to Wisconsin Point.  
It is intended that all other roads will  
have the right to use these facilities  
at a reasonable rental, so far as these  
plans are carried out, the question of se-  
curing an entrance into Duluth will be  
solved. The company will build a road  
across the Mesaba range to the interna-  
tional boundary and will agree to com-  
mence work within thirty days. The  
company asks that, in return for the  
great benefits which the city will derive  
from these improvements, it be given  
right-of-way over various streets, ave-  
nues and alleys on Minnesota Point, on  
both sides of the canal.The Herald believes that this proposi-  
tion will be regarded with favor by the  
people of Duluth, on account of the  
great benefits which the city itself will  
secure. By the building of a tunnel  
under the canal, and the construction of

## STOCKS ARE STILL SOLD

The Rumor That the Stock Exchange Would Close Today Proves to be a Canard.

Messrs. Humphreys, Cary, Herdman and Other Southern Iron Men Return to Duluth This Morning.

The Story that the Cincinnati Nine is to be Leased Demolished at the Company's Office.

There was a much larger gathering than usual when the stock exchange opened today and the space outside the railing was crowded with spectators assembled with the kindly purpose of attending a funeral. They were disappointed. There was no corpse. It would seem that the rumors of the past two days regarding the closing of the stock exchange are untrue. No move of any kind in that direction was made this morning, and there is no reason to believe that we are not to go on just as same as usual.

"There is no truth in the report that the exchange is to close," said Mr. Richardson, who has no intention of giving up the fight and there is no reason why we should do so. Secretaries George also denied the rumors that George had been current.

There is considerable activity in mining matters today and some interesting developments are to be expected soon. A large party of men interested in Mesabi mines came in over the Omaha, among them, A. E. Humphreys, R. T. Herdman, Thomas Keenan and Bob Carr.

"People in the South," said Governor Carr, "are very much interested in the iron development. The interest is growing and is one that will be valuable to Duluth. I think perhaps the greatest interest is in Cincinnati. Mr. Humphreys has been interested by a number of business men and the iron development is interesting some of whom have sold me to Ohio in the Mesabi mines."

He added: "I do not know that there is any special need to tell you or that any thing special is in view as a result of the trip of Mr. Humphreys, but one never knows what will turn up."

Mr. Carr is here to stay for two weeks.

Regarding the story that the Cincinnati mine is to be leased to some heavy operators, Mr. Cox said this morning: "There is absolutely no truth in the story. It has not been leased and there is no intention of making any such move."

## AMUSEMENTS.

Dixey, in spite of the many attractions of the winter, drew a audience at the Temple, and pleased them to the full. The "Solicitor" is a well constructed comedy, with a great deal of life, though the action at times is a little slow. It was Dixey's first appearance in Duluth in anything approaching the legitimate. The impression made was a good one.

## "Little Puck."

Frank Davis, who comes with "Little Puck" to the Lyceum tonight, is certain of a good house. Daniels is a comedian with a way of amusing that is all his own. The play has been worked over since seen here last and is full of new music, dancing and songs have been added. Miss Bessie Sanson still heads the heavy of pretty and clever girls. Mr. Daniels has in his company: The company includes Charles C. Taylor, Mrs. Robt. Evans, Harry Porter, the original Clipper quartet, Miss Hillda Thomas, who is a great favorite here, Miss Minnie Nuter, Miss Hattie West, Miss Annetta Zane, Miss Wellie Bainbridge, Miss Julie Kingsley and Myra Smith.

## A Social Session.

"A Social Session," which will be seen at the Lyceum on Tuesday evening is said to be different from the average fare company, inasmuch as it is a farce, a play in several acts, and there is one, a reason for everything that is done, that obviates the necessity for horse play. The dialogue is bright and funny, and the situations are so unusual that the audience is kept continually convulsed with laughter.

## The Marion Band.

The United States Marine Band is making a wonderful financial and musical record on its tour to California. In the eleven towns of Chicago, St. Louis, Kansas City, Denver, Salt Lake City, New Orleans, San Francisco, Sacramento, and Los Angeles—all one day stands but three—its receipts were over \$35,000. This completely eclipsed all previous band records. The musical success of the band is equal to its financial triumphs.

## "O'Dowd's Neighbors."

Of the attraction which appears at the Temple tomorrow night, a recent exchange says: "O'Dowd's neighbors" is an comic comedy, "O'Dowd's neighbors" is stronger and better than ever has come back to the city. Since the play was seen here last fall, many changes have been made in it, and the company, the prominent addition being Miss Louise Gilson whom Tony Pastor imported a few seasons ago. She made a most decided hit among New York's girls. New music and songs have been added, and new scenes have been introduced, and the play and cast are now said to be the strongest of their kind on the road."

## A Sad Easter.

A Wife and Mother Dies at Sea—The Family Home.

James Sullivan, with his two motherless boys, William, aged 10 years, arrived in the city yesterday. Their story is a very sad one and the sight of the little felloes' eyes as they related the very sad ending of their mother's life, was enough to move even the strongest heart. The little boys were very courage, passengers on the steamer Nevada, of the Gulton line, and the ship encountered a heavy storm on the morning of Easter Sunday, which woke the oldest boy, William, in alarm, when the ship was sinking. He ran to his father, who was almost dead, and left the steerage, and the two sons after him, poor woman gave up the fight and died. The story can best be briefly told in the father's words:

"It was as easy as could be," said a High school boy to his friend, "to make my old ironing dress look like a new one, by using Diamond Dyes. I dye ribbons and feathers any shade, and make all kinds of ink from them, while Mama doesn't care dresses, cloaks and suits for the whole family."

## PARK POINT TERMINALS

The Plan of the Duluth & Northeastern Railway and Terminal Company will be Presented Tonight.

The Council Will be Asked to Pass Upon the Request and Proposition of the New Company.

Interviews with W. C. Sargent and T. G. Hillhouse, who are Interested in the Plan.

A week ago today The Herald announced that a new terminal scheme was about to be made public and gave, in a general way, its features. The predictions made at that time have all been fulfilled, and this evening the ordinance which embodies the plan will be presented for the consideration of the common council. W. C. Sargent, who is very prominently interested, returned to Duluth from New York yesterday. He was seen by a Herald reporter this morning and made the following statement:

"My plans are all working very nicely and the ordinance which I asked the council to consider is ready for introduction this evening. As it has not yet been before the council, I do not feel at liberty to state what will be asked for, I can only say that the ordinance grants the right of ways, docks, for the right to work, and it means a lot of money to be spent here during the next two years."

"Mr. Hillhouse, one of the principal men in the Omaha this morning, can tell you as much as I can, but I would say that we all prefer to keep quiet until we know what the council will do. The ordinance which is to be published in your paper this evening states the objects and purposes for which the company is organized and the ordinance which goes to the council will be the same. It is the work of the city and what we propose to do. There are good men behind us, but all these details will come out in due time."

Thomas G. Hillhouse, of New York, who is also interested in the new terminal scheme, came in on the Omaha this morning. He is a Herald reporter at once and said he had nothing to do with the scheme, but that the company means business, and work will be pushed vigorously if the council see fit to grant the rights and privileges asked by his companion. He said the scheme, if carried out as proposed, meant a great deal for Duluth.

N. F. Hugo was also seen by a Herald reporter, and the terminal project that is to be brought up before the council for consideration this evening. He said that he (or one, and he thought the other members of the council too, would give this question very weighty consideration before voting upon it). Said he, "This matter has been before the people in various shapes for a long time. As I understand it the company which Mr. Sargent represents intends doing something substantial for the city in return for the privileges asked. This is the first instance of the kind ever known in the history of Duluth, and that was why I was so anxious to get Mr. Sargent's request last Monday night, giving him a week to get a definite proposition. I know who the men are that are behind the scheme and am satisfied that they are business men. I do not understand that Mr. Sargent's company is identical to Mr. Holmes' either, for his plans can be carried out he proposes to give to Holmes or anyone else just what Mr. Holmes is looking for—an entrance into the city and facilities for docks, etc., on Minnesotta Point."

## PARIS IS EXCITED

The Dynamite Outrage has Created Excitement and Threats of Lynching are Made.

Three Men and Three Women are believed to have been the Miscreants.

Magistrates Marked by the Anarchists for Vengeance are Guarded by the Police.

PARIS, April 26.—The greatest excitement reigns today over the dynamite outrage of last night in M. Very's wine shop, and for the first time in many years threats of lynching are freely uttered in the streets. Among the respectable classes fear and apprehension have given way to an angry and desperate feeling and should the law spare either Ravachol or his accomplices it is probable that the public themselves will turn against him. The government's position seems to consist of a state of war virtually between society and the anarchists and that the latter must be crushed like vermin should they not be.

M. Very, proprietor of the wine shop in which Ravachol was arrested, is still living. He is in a critical condition and the doctor says he is likely to express a hope of his recovery. It appears that yesterday morning Very had received another threatening letter. A few days ago M. Very had already received so many threatening letters that he had taken to his bed. The police have been kept secret to the prefecture of police, and taking himself to some spot where he was not known.

He is in a very nervous state and was convinced that sooner or later an attempt would be made to kill him and his family. During the past few days he has been in search of a refuge not for business, but for safety, simple as that.

His wife had been in prison in New York society and had held for many years the undisputed place of its leader. John Jacob Astor, who died Feb. 22, the deceased leaves one son and two married daughters. John Jacob Astor, whose son was married to Miss Willing, of Philadelphia, a daughter of Senator George F. Edmunds, of Vermont, and his wife, Mrs. Astor, probably the richest citizen of America, was recently estimated at \$6,000,000. He was a brother of the late John Jacob Astor, who died Feb. 22, 1891.

The deceased was estimated to be worth \$60,000,000 which he inherited.

LONDON, April 26.—A special from Paris says William Astor, of New York, father of Mrs. J. Coleman Drayton, died last night of heart failure.

The deceased was estimated to be worth \$60,000,000 which he inherited.

WILL NOT BE REMOVED.

Gen. Grant's Body Will Remain in Riverside Park.

N. Y., April 26.—A special to the Herald from Washington says the movement to transfer the body of Gen. Grant from the cemetery at Arlington has substantially come to an end.

The Senate has voted to appropriate \$10,000 additional in favor of the plan.

WORTH SIXTY MILLION.

New York, April 26.—William Astor, whose death in Paris last night was announced by cable this morning, was next to his nephew, William Waldorf Astor, probably the richest citizen of America.

His wealth was recently estimated at \$6,000,000.

He was a brother of the late John Jacob Astor, who died Feb. 22, 1891.

He is also prominent in social life.

William Astor was very wealthy he was not reputed to be nearly so opulent as his elder brother, John Jacob, brother of the deceased, and his wife, Mrs. William Waldorf Astor. The disparity in their fortunes was the result simply of inheritance.

Their father, William Astor, had a large estate in New York and had held for many years the undisputed place of its leader. John Jacob Astor, who died Feb. 22, 1891.

He was a member of the New York Stock Exchange.

PARIS, April 26.—The canal enterprise is threatened with total collapse. A cable from London says that the chain across the channel entering the canal, which the canal company had placed there to prevent traffic, the company has now removed it.

They called him a black leg and pushed him into the water. He was a man of great strength and was able to make the man afraid they were about to assault him. Pearson, who was armed with a pistol, drew it and told his persecutors to keep away.

They kept pushing and shouting and Pearson fired and severely wounded a man named Atkins, who has acted as a delegate of the strikers.

Pearson was arrested and locked up by the police, who had had difficulty in protecting him from the violence of the mob.

THEIR MARAUDER WOUNDED.

RUNNING FIGHT BETWEEN A SHERIFF'S POSSES AND MARAUDERS.

CAMPDEN, April 26.—Yesterday at sunset a posse of four miles south of here, a running fight occurred between a sheriff's posse and a gang of marauders who Sunday night had fired into a negro woman's cabin, wounding her in the arm.

The party of night riders went towards Campden after their depredations, and the posse overtook them in the moon, where they had stopped for dinner. At the sight of the officers they ran, and the posse fired at them, seriously wounding one of the band.

They escaped and were pursued by the sheriff's posse, who had been sent to追捕 them.

THEIR MARAUDER KILLED.

PARIS, April 26.—The trial of the anarchist Ravachol, who was found guilty of the dynamite outrage at M. Very's wine shop, was begun today at 10 o'clock. The trial concerns the dynamite outrage at M. Very's wine shop, which took place on the steps of the Hotel de Ville. The Weather.

U. S. WEATHER PREDICTOR, DULUTH, MINN.—  
The weather remained nearly stationary,  
the rain bells have stopped, and the  
temperature has gone northward. It will  
probably move southeast toward the  
Great Lakes, but as an area  
of very high pressure is in the way, it may  
not reach the lakes. Persons expect  
that there will be rain, slight changes in  
temperature, with a general  
northward shift to northwest and re-  
mainning high by tomorrow night.

Rain has been heavy. At Moorhead, 1.00  
inches. Bismarck, N. D., 1.00 has fallen during  
the past twenty-four hours.

The highest point reached was 96°,

STATISTICS OF WAGES.

There is an earnest desire among leading political economists and manufacturers, as well as among writers and thinkers, on industrial problems, to have the statistical work, covering the wages of labor throughout the United States, as contained in the tenth census, continued. There are many cogent reasons why it should be continued. The struggle for higher wages, and the contests of labor and capital are by no means over. Many of these bitter and costly contests in the past have been due more to the ignorance of those who blindly precipitated them, than to any actual injustice on the part of employers.

One purpose to be subserved by the continued collection of the statistics of wages, extra earnings, regularity of employment, methods of payment, labor costs and influence of machinery, is that labor may be properly and fully informed as to the whole vast question, that it may be able to intelligently strike for just compensation. Strikes by the hundred could be averted or more readily settled or adjusted, if there were some acceptable authority on the subject, covering the whole field, such as a carefully and conveniently compiled census report. It is for this reason to say nothing of other reasons which readily suggest themselves, that it is most desirable that the work be continued, and that the legislation to this end now under consideration, receive favorable consideration.

The "Statistics of Wages" of the tenth census was prepared by Mr. Jos. D. Weeks of Pittsburgh. His work has received the official endorsement of the ablest political economists on both sides of the water, as well as by leading men in the senate and house of representatives. This work ought to be continued; there are too many and too vital interests at stake to allow it to rest. No better qualified, more thorough and painstaking statistician than Jos. D. Weeks can be found for this important work, and it is to be hoped the needed legislation will be enacted to allow of the prosecution of it.

A LIBERAL OFFER.

The railway and terminal scheme presented to the council last night by the Duluth & Northeastern company appears to meet with favor on all sides. It is a matter that will no doubt receive careful consideration from the aldermen before definite action is taken, so that the interests of the city may be carefully guarded. It is the first time that any company seeking rights and privileges from the city has offered anything valuable in return.

The company offers to pay half the expense of constructing a tunnel beneath the ship canal and to take the city's bonds in payment of the other half. The tunnel is to be made large enough to accommodate passenger and team traffic, as well as to contain railway tracks, and the plans are to be subject to the city's approval. This is a liberal offer, and when it is also stated that the entire transfer and terminal system of the company is to be open to use by other roads on reasonable terms and that the tunnel is to be completed within eighteen months, the favorable features of the proposition grow still more pronounced.

THE WRONG OFFER.

An unfortunate mistake, caused by misinformation or a confusion of names in a conversation over the telephone, it was stated in yesterday's issue that J. J. Hallowell, the absconding West Superior bank cashier, was cashier of the State Bank of Wisconsin. This was incorrect. Hallowell was cashier of the Superior National bank, and the president referred to in yesterday's dispatch was Mr. Cadwallader, who was president until a few weeks ago. If the mistake has caused any annoyance to Cashier Julsrud and President Fowler, of the State Bank of Wisconsin, The Herald regrets it.

Mayor d'Autremont has taken what is probably the wisest and safest course in

vetoing the payment of an estimate to Fredin & Wilson on the Lake avenue contract. If the contract is illegal, then manifestly an estimate on it is also manifestly illegal. At the same time if any legal way can be found to deal justly with all parties concerned, who became involved innocently in this unfortunate affair, the people will approve the action.

The Republican primaries will be held tonight to elect delegates to the county convention which will select delegates to the St. Paul and Brainerd conventions. The Republican readers of The Herald should not forget that it is their duty to vote at the primary caucuses. If more interest were taken in the primaries there would be less reason to kick at the results.

The Weather.

The saginaw, Mich., yesterday morning, will be deeply regretted by many friends made by the deceased during his residence in Duluth. Mr. Bingham was a large-hearted man, strong in his friendships and gifted with much ability.

The fight over the anti-option bill is apparently not settled. Today's dispatches announce that Col. Graves, who is at Washington, has serious objections to the measure in its present form, and the fight against it will be renewed.

The senate has done well by rejecting the Geary Chinese exclusion bill. It was contrary to the established policy of this country and was a shameful violation of treaty obligations.

Col. Graves told a Washington correspondent that he is not anxious to go to congress.

AMUSEMENTS.

Frank Daniels, "The Little Puck"—Tonight's Attractions.

"Little Puck" is a fairly good house at the Lyceum last evening and seemed to please them. As far as I can go, the show is as good as the average at Daniels seems to have no difficulty in keeping his players in good humor, of them actually having to come by the way, which can be paid to few companies of the kind. Bessie Sansom is as popular as ever and Hilda Thomas again proved herself a Duluth favorite.

"A Social Session."

Of "A Social Session" which will be seen at the Lyceum this evening, the Kansas City Journal says: "It is one of the most sparkling sessions of comedy presented is fresh and original, featuring humorous situations, catching dialogues and surprising changes that keep after surge of side splitting amusements."

"O'Dowd's Neighbors," a farce comedy with many new scenes is to be given at the Temple, tonight for the first time. The play is one which was very successful in New York, and it is said that it will be produced here by the same persons which since the star made it a "go".

The company contains some very clever people besides the star, and music and dancing are pleasing and unique.

Michigan Glee Club.

One of the most entertaining evenings that will be spent this week will be Thursday, when the University of Michigan Glee and Glee club give their performance. The visitors are meeting with favor among the college men of the city and there will doubtless be a large attendance at both performances. The concert promises to be rather brilliant as a musical and social event.

The Dunes of Slade.

The career of the widely-noted medium Slade, who is the Philadelphia Times, has come to a sudden and terrible end unless the reports given by the Duluth newspaper under the heading of the city are as true as they are. All the stories of Browning ever written, in scorn of "Mr. Sludge, the Medium," pale into insignificance beside the cold, unfeeling fact that he has been killed by his own master, his mayor.

And yet those who have been his dupes will probably refuse to accept his disgrace as proof of the fraudulence of his "manifestations."

The Nebusa Iron Mining Company was incorporated under the laws of the state of Wisconsin April 1, 1888, for the purpose of operating the Nebusa iron mine located in St. Louis county, Minnesota, about four miles from Tower, Minnesota, and at the time of the organization of the stockholders on April 23, 1889, the following officers were elected:

President, C. H. Oppel; vice president, C. F. Diether; secretary and treasurer, H. Oppel.

Board of Directors—C. H. Oppel, Duluth, Minn.; C. F. Diether, Duluth, Minn.; L. Lederer, St. Paul, Minn.; H. Oppel, Duluth; C. G. Lindholm, Duluth; M. C. C. Oppel, Tower, Minn.

C. H. Oppel, superintendent of mines. The \$2,000,000 capital stock of the Nebusa iron mining company is divided into shares of \$100 each, and it is proposed to sell 20,000 shares of this stock, part of which will be used to develop these mines and the sale will take place sometime in the fall of the year.

The lands of the Nebusa iron mining company are situated in the heart of the state of Minnesota, and the company's property, a property that has paid its owners enormous dividends and whose production ranks with the best grade of iron.

We are confident that the Nebusa will rank second to none on the range and consequently second to none in the world. Secure some stock in the Nebusa tomorrow and you will have made an investment that will bring you good returns.

The latest report of the state board of  
health shows an alarming increase in  
nervous diseases.

Interviews with leading physicians and  
druggists confirm the report of an unusually  
large amount of sickness, notably  
of the nervous system and troubles which have their origin in an  
impoverished and impure condition of  
the blood.

In cities and towns of this and neighbor-  
ing states there is generally a like  
condition of affairs. People are weak and  
weary, feverish and sleepless, with  
periodic headache and dimness of vision.  
These are dangerous symptoms. Yet  
they are known to physicians, and care they  
can be overcome, though it requires  
a long time.

In interviews with a well known  
contaminated physician of this city, he  
stated: "The one remedy physicians  
rely upon for strengthening the nerves  
and purifying the blood, is Paine's elixir  
cayenne. This compound is the dis-  
covery of Fredin & Wilson, Druggists, M.  
L. L. D., of Dartmouth college.

"It is having a remarkable sale here

in calls of general practice. Its  
remedies are simple, and the cures of  
valuable and lasting character. The physi-  
cians who prepare it invite correspond-  
ence from physicians and furnish the  
formula to all reputable members of the  
profession."

"I can command it too highly at  
this season, when a strengthener or  
health-giver is absolutely demanded by  
the public."

## AT GRANT'S TOMB

Laying of the Corner-Stone of the  
Grant Monument in Riverside  
Park.

President Harrison and Members of  
His Cabinet Present at the  
Impressive Ceremony.

An Eloquent Address by Chauncey M.  
Depew on the Career of the  
Great General.

NEW YORK, April 27.—The corner  
stone of the nation's monument to Gen.  
Grant in Riverside Park was laid today  
with becoming ceremonies. The weather was all that could be desired, a  
cloudless sky bright sunshine, tempered  
by a moderate breeze blowing over the  
Hudson river. Long before the time  
appointed for the dedication ceremonies, the  
immense grand stand erected in close  
proximity to where the monument will  
stand and partly surrounding the corner  
stone, began to fill with those privileged  
persons who had been invited. The  
ceremony was opened with a short  
service by Dr. John Hall, offered up a prayer which was listened to  
by all the gathered guests.

The president of the Grant Monu-  
mental Association, Gen. Horace Porter,  
then delivered an address, detailing in  
brief the doings of the association  
since its organization and the progress  
of the work. After a brief recess the  
president approached the tomb, the  
corner stone was laid in hand and  
the miter-knife was used and the immense  
thunderous shout heralds.

The carriages drew up front of the tomb,  
the president stood in his hand and  
bowing on his knees in answer to the mag-  
nificent greeting accorded him. After a  
moment's quiet, the Rev. Dr. John Hall  
offered up a prayer which was listened to  
by all the gathered guests.

THE AUSTRIAN REICHSRATH.

Has Been Convened by the Emperor

VIENNA, April 27.—The reichsrath has  
assembled on the summons of the em-  
peror.

The negotiations between the  
Austrian and Hungarian finance min-  
isters for the settlement of the currency  
question are stated to have led to an  
agreement on several important points,  
but there are still many difficulties in  
the way of a final arrangement.

THE OHIO REPUBLICANS.

Opening of the State Convention—  
Foraker Loudly Cheered.

CLEVELAND, April 27.—Still flushed  
with the recollections of glorious victory  
of five months ago when they lifted up  
the great apostle of protection and high  
tariffs and the banner of the Republican  
party in their state capital city, the  
Ohioans again assembled this afternoon  
to again proclaim this affirmation of its  
revolutionary principles.

The deliberations which have been  
proceeding between the ministers and  
the delegates of the Rotenberg group  
have served to afford information  
concerning the two parties. As matters now  
stand, the currency bills will probably  
come on for discussion during the first  
few days of the session.

SPLIT IN THE ALLIANCE.

The Anti-Domestic Faction Opposed to  
the People's Party.

ST. PAUL, April 27.—An address to the  
public was issued last night by the state  
central committee of the Alliance party of  
Minnesota, asserting that the new  
people's party has no right to assume  
the place of the Alliance as the farmers'  
party of the state.

The alliance's secretaries regret that there are  
warring factions in the Alliance ranks, but  
insist that if the Alliance central  
committee should stand aside now to give  
place to the people's party committee,  
the farmers' interest would speedily go  
to the dogs.

The committee adopted a resolution  
asking for a conference with the party  
of the people's party.

## A FEARFUL STORM.

Disasters Reported all Along the British Coast from a Storm of Great Severity.

Several Fishing Boats Swamped and Four Sailors Drowned—Others Are Missing.

The Severest Storm of the Season Now Raging in Manitoba and Fatalities Feared.

STARTED BY INCENDIARIES.

The Entire Business Portion of an Ohio Town Burned.

HUDSON, April 28.—Fire, which was discovered at 2:30 this morning in the rear of Lockhart's saloon on Main street, spread rapidly to all buildings on that side of the street. The Hudson fire department, however, proved useless in staying the progress of the flames. Aid was asked from Akron, but when the engines arrived at 6 o'clock, the entire business portion of the town was in ashes. The loss is about \$14,000, partially insured.

The fact that the fire started in the basement of a building owned by a negro, who had been evicted, is suspected.

Along the Norfolk coast, it is feared that several wrecks have occurred, a number of coasting and fishing vessels being missing this morning.

WORST OF THE SEASON.

WINNIPEG Visited by a Severe Storm, Which is Still Raging.

NEW YORK, April 28.—The worst storm of the season set in here yesterday afternoon and is now at its height. The snow is twelve inches deep in the western part of the province and the west wind has been greater than the east. The snow has been precipitated over the Canadian Pacific between here and Brandon, and trains are delayed. It is feared that there will be loss of life.

A THREATENING OUTLOOK.

THE MISSISSIPPI RIVER APPROACHING Extreme Flood Height.

VICKSBURG, Miss., April 28.—The fact that the Mississippi river from Memphis to the Gulf is gradually approaching extreme flood height is causing uneasiness, in spite of positive knowledge that the levees are stronger at any time previous to their completion, that anything will happen overflows is practically impossible. Levee builders hold that no levee is absolutely safe while the water is against it. A temporary established by the city of Vicksburg, which was supposed to be the strongest.

Below this city the outlook is threatening, and the belief is general that the present condition of the river will be still more serious.

WILLIAM ASTOR BURNED.

PAULS, April 28.—The funeral of William Astor, at the American Episcopal church today was entirely private, being attended only by members of the family. Many flowers were received from friends in Paris and elsewhere. The service was conducted in a quiet, simple manner.

Two bodies have been recovered from the burned Cayuga flats at an hour and a half after the fire had been sent out.

LATER—Two bodies have been recovered from the burned Cayuga flats at an hour and a half after the fire had been sent out.

WARNER FOR GOVERNOR.

JEFFERSON CITY, Mo., April 28.—In the Republican convention Maj. Wm. Warner, of Kansas City, was nominated for governor by acclamation amidst the strongest opposition.

He is a man of great personal popularity.

WILLIAM LEEMUS LEFT.

NAVARASO, Mich., April 28.—Chase, a lake county village with nearly 1200 inhabitants, was almost wiped out of existence by fire last night. Twenty-five buildings on the Main street, including the post office, were destroyed. The loss is estimated at \$10,000.

THE TRIAL MUST GO ON.

Postponement in the Deeming Murder Case Denied.

MELBOURNE, April 28.—The judicial criminal court gave his decision on the application for postponement of the case of F. B. Deeming, the murderer. The judge decided the case and Mr. Forlongs, barrister, took charge of the defense, having been instructed to defend him.

GETS THE PARIS PORTFOLIO.

WASHINGTON, April 28.—The presentation to the senate today of the nomination of T. Jefferson Coolidge, of Massachusetts, to envoy extraordinary and minister plenipotentiary of the United States to France.

WILL TO HIS DEFENSE.

MELBOURNE, April 28.—The Melbourne Standard states that the defense of the criminal court gave his decision on the application for postponement of the case of F. B. Deeming, the murderer. The judge decided the case and Mr. Forlongs, barrister, took charge of the defense, having been instructed to defend him.

THE MUSICAL REPUBLICANS.

JEFFERSON CITY, Mo., April 28.—In the Republican state convention yesterday, Chauncey L. Filley declared himself a supporter of President Harrison's nomination for the presidency, and voted to nominate Major Warner, of Kansas City, for governor. He also made a strong play for harmony among the different factions. William Warner, C. J. Filley, R. C. Kerns and A. C. Dawes were elected delegates-at-large to the national convention.

SIDDEONS DEFENDED.

NEW ORLEANS, La., April 28.—George Siddons and Johnny Van Heest fought last night before the Metropolitan Club here. They were separated from their respective parties and engaged in a fierce struggle. After seven well and hard-fought rounds Van Heest was declared the winner.

ILLINOIS DEMOCRATS.

SPRINGFIELD, Ill., April 28.—The Illinois Democratic convention yesterday nominated Judge J. Alford of Chicago for governor, and Joseph B. Gill of Murphy for lieutenant governor.

Gen. J. C. Black, of Judge Alford's party, was nominated for congressman at large. The resolutions instruct the delegation to place Gen. Palmer's name before the national convention as a presidential candidate.

ROUNDING UP GATTLIE THIEVES.

RAPID CITY, S. D., April 28.—Deputy Marshal Mathews brought in yesterday evening the fugitive desperado, George "Gatlie" Rippert, to justice.

He was captured in Sioux City, in the very heart of town, that will net the investor ten per cent in the next six months. Bargains like this don't last long, so if you contemplate purchasing come around and be convinced.

## CRUEL AND COLD-BLOODED.

Ghastly Murder of a School Teacher in Arkansas.

ARKADELPHIA, Ark., April 28.—News has just reached here of a murder committed yesterday at Gunn Springs, which was as cruel and cold-blooded as those of Jack the Ripper, and poor D. B. Tucker, a wise man, who had recently been teaching school at Donaldson and Arkardark, Ark.

After a series of mutterings upon his person, the murderer severed the head from the body with some very sharp instrument and then threw all the remains into a small branch, where they were shot by a negro, who reported his find to the proper authorities. Up to this hour there is no clue to the murderer or the motive for his ghastly deed.

### THE PRICE OF WHEAT.

Reference was recently made to a  
lengthy article in the St. Paul Pioneer  
Press in which it was claimed that the  
farmer does not receive as much for his  
wheat as he should, because transportation  
and transfer charges between the primary  
and foreign markets aggregate  
about 10 cents less than the difference in  
wheat prices between the primary mar-  
kets in this country and the market at  
Liverpool. The answer made by Mr.  
R. S. Munger of this city, showing the  
omission by the Pioneer Press theorist  
of several important items of expense  
in transportation, was also given.  
This subject has since received considerable  
attention from New York papers, all  
of which have combated the position  
and the St. Paul paper.

The New York Evening Post makes  
the same remark that no such "loss"  
as the Pioneer Press claims does exist,  
because "if there was an extra profit of 10  
cents per bushel to the middleman in  
sending wheat to Liverpool that city  
would be buried by the grain which  
would flow in upon it." The Post also  
points out that in the calculations as to  
wheat prices at various markets the Pioneer  
Press "lost sight of the fact that  
English quotations are for special and  
choice old wheat, which is not to be ex-  
plained away by allowing having been  
made for grinding, as there are differ-  
ences in values between wheats in the  
same grade." This difference, it is said,  
will account for "5 cents of the discrep-  
ancy per bushel." The 10 cents per  
bushel referred to by the Pioneer Press  
as lost to the farmer "is figured out after  
allowing 3 cents per bushel on the Du-  
luth grade, to make it correspond with  
the New York standard grade known as  
No. 2 red winter. Since 1891 quotations  
for the two grades have crossed each  
other, so that No. 2 red winter, instead  
of being worth 3 cents less than the Du-  
luth grade (known as No. 1 northern), is  
actually now selling 3 cents higher, a  
total difference of 6 cents in relative  
values as compared with 1891." Such  
changes in the two standards "render  
worthless any statistical conclusions  
drawn from comparing prices and grades  
which are essentially dissimilar," and  
the Post therefore concludes  
that "there is no difference  
between Liverpool quotations and  
Minnesota prices, which cannot be ac-  
counted for by transportation, insurance  
and incidental expenses, including a  
profit to the middleman for making the  
long transfer."

The New York Commercial Bulletin  
also exposes the weakness of the St.  
Paul paper's argument. The theory that  
the price of wheat "at the elevator near-  
er the farm is far less than the price of  
it in the principal markets of the world,  
less the cost of transportation from the  
field to the point of final sale," and that  
"if there is any great variation between  
these prices," at the farm and at the  
point of final sale, "over and above an  
amount sufficient to cover the expense of  
moving the grain, then somebody is se-  
curing an unjust profit," says the Com-  
mercial Bulletin, is a "false assumption,  
for if the farmer is ignorant, and sells  
his wheat for less, than he might have  
obtained for it, there is no unjust profit  
when the buyer sells for what the wheat  
is worth in a distant market. So at  
every point in the movement."

The Bulletin asks very pointedly if  
the difference in the price of wheat  
between Crookston and Duluth is so  
much more than the railroad charges,  
why does not the Crookston farmer sell  
his wheat himself in Duluth and get the  
benefit of the higher prices at the latter  
point? "There are wires and there are  
eager brokers."

Then follows the inquiry that if the  
farmer "chooses not to take the risk or  
to wait, and prefers to sell as he does  
at the elevator," who shall decide  
that "the services of the man  
who does take the risk and wait  
are not worth to the farmer all the  
difference in the price?" In brief,  
the men who handle the wheat are in the  
business to make money. If they as-  
sume the risk and labor they have a  
right to a good-sized margin. While  
sometimes their profits are large, it is  
equally true that at other times their  
losses are heavy. It is very easy for the  
Pioneer Press theorist to sit in his office  
among the clouds and figure out what  
the grain dealers should pay the farmer  
for his wheat, but if he would engage in  
the export business himself during one  
season it is safe to say that he would find  
very little foundation for the theories he  
now supports.

**THE TORRENS SYSTEM.**  
A commission was appointed at the  
last session of the Minnesota legislature  
to inquire into the working of the  
Torrens system of land transfer and to re-  
port whether it is desirable that it should  
be put in operation in this state. The

commission has had several meetings  
and is carefully collecting all available  
information on the subject, which will  
be embodied in its report to the legisla-  
ture next winter. It is understood that the  
members of the commission are in favor  
of the system and consequently will recom-  
mend that it be established here.

The essential feature of the Torrens  
system is the guaranteeing of titles by  
the government, and this feature will  
probably argue against it the influence  
of the title insurance companies doing  
business in Minnesota. If the Torrens  
system became a law of this state, these  
companies would oppose it, fearing their  
occupation gone and would be compelled to go out  
of business. Naturally, they will fight  
the adoption of any system of this  
character. Opposition may also be  
expected from many members of the legal profession, because another  
feature of the Torrens system is its sim-  
plicity. It does away with many intricacies  
connected with the existing mode  
of land transfer which require the ser-  
vices of an attorney. The title shars  
will also be found arrayed in opposition  
to any such system. Under such a sys-  
tem they would not have to fight the individual,  
and perhaps poor, owner of the land to  
which they laid claim, but they would  
meet in court the government, prepared  
to defend to the end the title which it had  
guaranteed and supported by a fund created for that special purpose  
from the fees derived from registration.

The system, however, would be a great  
benefit to the people, and if its many  
good features were more generally  
known public sentiment would be so  
strongly in its favor that the next legis-  
lature would be compelled to establish it  
in this state.

**WANTS THE NOMINATION.**  
Lieutenant Governor Ives, of St.  
Peter, has announced in an interview that  
he is a candidate for the Republi-  
can nomination for governor. He does  
not intend, however, to enter into any  
bitter contest for it, but will accept if he  
should be chosen.

The Republicans would make no mis-  
take by nominating Mr. Ives, who record  
in the senate has been a good one,  
and the governorship would be electable.  
There is no man in public life in this  
state who has a clearer reputation than  
has Mr. Ives, and in addition to his  
possessed excellent judgment and ability.

Mr. Ives has always been a staunch  
friend of Duluth and the entire northern  
part of the state, and during his chair-  
manship of the Republican convention  
he declared he is not a candidate  
for the Republi- can want a real  
smart candidate and a genuine one  
who will make an able and efficient executive  
if elected, their choice is Clapp.

**Lots of Fun in Sight.**  
Minneapolis Journal: It was Earl  
Gilman of Sang Clou, who remarked  
that when he went into a closer  
acquaintance with the girl he fell in  
love with her, and there, as long as I've  
been growing stone—

Watching my eyes and hair,  
Holding me close and there,  
Until I'm a perfect wreck.

Band and ruffles and sleeve:  
Oh, I'm a perfect mess—  
Dear love and innocence dressed.

Clapp's Boom Growing  
Twin City Journal: With half a  
dozen candidates supporting the Republi-  
can convention for governor, Mrs. Clapp,  
of the New York Tribune, says that  
she will not be a candidate, to let the  
ticket. He will be second choice of  
those entitled to the convention. He  
should be a safe bet.

Chatfield Democrat: Now it is denied  
that Merriam has chosen Lind for his  
successor in the gubernatorial chair, and  
that Mr. Lind declares he is not a can-  
didate. The Republi- can want a real  
smart candidate and a genuine one  
who will make an able and efficient executive  
if elected, their choice is Clapp.

Those who thought that Jay Gould's  
wheat was not very good will probably  
be satisfied, after the Union Pacific elec-  
tion yesterday that there is nothing rad-  
ically wrong with him. In fact, Mr.  
Gould is pretty well, and is liable to  
make some one else rather sick.

Mr. Blaine suggests that the law be  
so changed that the vice-president can  
be of greater assistance to the president  
than he is at present. Mr. Blaine's sug-  
gestion is a good one. The work now  
devolving upon the president is too great  
to be performed by one man.

The Superior Leader is urging the  
people across the bay to "be decent, be

it should be followed there would be  
quite a moral revolution in Superior.

Those who say that Jerry Rusk has  
a little chance of becoming a presidential

candidate, because he has no "barrel,"  
should remember that he learned the  
trade in his youth.

Again we are told that "Blaine is not a  
candidate, he is out"—this time by Senator  
Hale. Of course he is not a candidate.  
Did he not write a letter saying so?

BROKE THE BLOCKADE.

A Wind Off Shore Breaks up the Ice Field and Releases the Imprisoned Craft.

The Entries into the Port of Duluth for Yesterday Early Break all Former Records.

Forty-Four Vessels of Various Kinds Enter the Harbor in Three and One Half Hours.

The blockade outside Duluth harbor was broken yesterday afternoon. The wind which for several days has been packing the ice into this end of the lake shifted and began to blow from the southwest. The effect on the ice was instantaneous. The solid field of ice began to scatter and loosen and the fleet which had been lying idle for several days was at once on the move. The outfit boats started once in a hurried race for the "Sea" and the incoming craft indulged in a contest for the honor of passing first through the entry. The end of the lake was almost as thick with boats as it had been with the blockade. The entries were more than double what they were at Christmas time. Fewer and far between compared with the entries into the canal.

The largest fleet will ever enter Duluth Harbor in one day came into port between 4 and 7:30 last night.

Forty-four boats of nearly every class represented on the great lakes rushed headlong into a resting place.

There were small boats, iron boats, composite boats and steamers of many builds, schooners, whalebacks, tugs and tugs. On their course, doubtfully now in order, and there were taken care of by the Indian tugs, which probably had the liveliest hustle of their busy career. Among the arrivals was the Joe, a 100-ton freighter, which, Capt. Benson engaged right into work and took care of five heavy tows before he tied up at the tug dock. The sight was a very lively one and at one time twenty-five vessels of all kinds were moving between dock No. 2 and slip No. 1. There are now in port, on both sides of the bay, about seventy vessels and boats, about all there were in the matter at that time. They get straightened out. A correct list of big fleet will be found elsewhere.

Marine Notes.

The Uganda, the handsome new steamer in which La Salle & Wolvin are interested, is in port on her maiden trip. Captain La Salle, formerly with the Nyassa, pulls the bellows.

The schooner Iron State is ashore at Agate Bay. She will be released without any difficulty.

The parlor theater was hung up on the leader tail of the dock at the head of Paul & Duluth last night when the ice started. The water in the slip sank rapidly and the little boat's float was broken off and she sank in about five feet of water. She will be raised and repaired tomorrow.

The Lindrup, Con Flynn's new tug, is in port. She came in this morning and was pretty well coated with ice. Her hull showed some severe scratching from the passage through the ice.

THE MARINE BAND.

Its Appearance at the Lyceum a Brilliant Affair.

Social and musical Duluth was gathered in full force at the Lyceum last evening to listen to the United States Marine band. No one was disappointed. It was a great treat to the unaccustomed Duluthians. The band is a collection of artists under the direction of a musical genius so that its great success is not to be wondered at. The execution of even the most difficult pieces of perfect skillings, that give the finest of technical finish are made with no apparent effort. Sousa as a conductor is distinctly quiet and indigo in his gaitics, but his music, more than his looks, conjures up music that is magnificent.

The selections for last evening were of a varied character and in a measure suited to the popular taste. The finest was "The March of the Guards," known by Listz, which was beautifully rendered and in a manner that was truly artistic. Though even this was not so good as the extract from the "Promenade of Forest," which was rendered at the matinee. The descriptive numbers were also fine and aroused more enthusiasm than any of the other pieces. Mr. R. K. Olson to U.S. Music, past lots 8, 9 and 10, block 1, lot 1, block 1, Main Street, Griswold Point add., Duluth, Minn.

**FULL OF HARMONY.**  
The Republican County Convention Was Held This Afternoon at the City Hall.

Very Commonplace Affair in Which the Faithful Traveled as a Harmonious Whole.

List of the Delegates Attending and Text of the Resolutions Which Were Adopted.

The republican county convention held at the city hall this afternoon was an interesting but very uneventful meeting of the county host. The machine was well greased and moved without a jar. It was a case of "drop some harmony in the slot" and get a delegation. Everybody was in accord and, fresh start to finish, there was an air of brotherly love, robbing the convention of any sensational features. Chairman Nichols, of the county committee, called the meeting to order. L. Fisher, read the call and started the assembly on the right track. The list of delegates elected at the primaries was as follows:

Duluth—First ward, First precinct, C. A. Rutledge, Second precinct, J. H. La Vaque.

Third ward—First precinct, N. F. Hurlow, Ernest Kuntz, James A. Ross; Second precinct, J. H. Gordy, George F. Ash; Third precinct, T. O. Hall; Fourth precinct, J. E. Cooley.

Fourth ward—First precinct, E. R. Sandstedt, W. F. L. Smith; Third precinct, George Goldsmith, W. T. Thompson; Fourth precinct, Jos. A. Mannheim.

Fifth ward—First precinct, J. C. Hammond, J. W. Nelson; Second precinct, W. B. Butchart, George McAdams; Third precinct, Gust Bergquist; Fourth precinct, Fred H. Russell.

Sixth ward—First precinct, R. C. Kenney; Second precinct, S. M. Lester.

Seventh ward—First precinct, J. J. Mallory, M. Jacoby, J. A. Kirkwood, Frelinghuysen, M. E. Pierce, W. K. Fraser, P. C. Cherin, John Lawson, Matt Neiter, J. West, J. Gardner, J. Tonkin, H. Hughton, S. Chidlers, J. C. Moorhead.

Tower Dr. Fred Barrett, Jas. Falk, Capt. John Pengelly.

The delegates were a little slow in getting in and the convention hall was not opened until 2:15 p.m. Chairman Nichols then called for nominations for temporary officers and J. A. Boggs was chosen without opposition. Boggs took the chair and after thanking the convention made a few remarks regarding the responsibility of the situation.

After dinner Fred H. Russell was chosen secretary of the convention.

The convention then took a short recess to allow the committee time to report, before proceeding with the regular session of nominating thirteen delegates to the convention at St. Paul, and equal numbers to the district convention at Brainerd.

When the convention reassembled the committee on credentials reported and the committee on resolutions reported as follows:

The following are the resolutions adopted by the convention: "We, the convention assembled, do hereby re-pose our alliance to the National Republicans and do most earnestly endorse the wise patriotic and intensely loyal administration of President Benjamin Harrison, when re-nominated in most earnest favor, and we do also command the reciprocal policy outlined and successfully carried into execution by our illustrious statesmen and secretary of state, James G. Blaine."

We unite with the great majority of the Republicans of Minnesota in extending our thanks to our distinguished representatives and do most earnestly endorse the national convention at St. Paul, and delegate-at-large to the national Republican convention, and with a view to carrying out the wishes of this convention, to the extent possible, do desire to have the representative delegation to the Brainard and St. Paul conventions to cast the votes of their delegations in each and a unit in accordance with the rules of the convention.

Deeply impressed with the necessity of having a home on the floor of the national house of representatives capable of rendering effective service in behalf of Duluth and the entire Sixth congressional district, we, therefore, do desire to have the representative delegation to the Brainard and St. Paul conventions to cast the votes of their delegations in each and a unit in accordance with the rules of the convention.

The cars will leave from the Spalding house for the Hardys' home as follows: One car 6:50, two at 7:12; two at 7:34, and two at 7:56, to accommodate those who wish to attend the lecture Friday evening. Mrs. Parker will begin promptly at 8:20 p.m. as she is obliged to return on the 11:15 train.
